Numismatists Start Packing For A.N.A. - C.N.A. Sessions

Hamiltonians Working Out Final Details

Hamilton, Ontario, will be transformed into numismatic headquarters August 31, September 1 and 2 when the eighth annual Canadian Numismatic Association convention convenes at the Royal Connaught Hotel.

Bruce R. Brace, 100 Merna Avenue, Hamilton, chairman of the convention, and Mrs. Thelma Anderson, secretary-treasurer of the meeting, joined today in describing the outstanding events in store at this meeting.

There will be displays of outstanding numismatic material, the official C.N.A. business meeting—it is an election year for the organization—the C.N.A. donation auction, a bourse with 44 dealers in attendance, a convention mail and floor auction of rare and very fine numismatic material by the Canada Coin Exchange under the direction of J. E. Charlton.

There will be tours of the city and of the new City Hall, ladies' activities including a fashion show and other features, and a banquet with Admiral O. H. Dodson, retiring president of the American Numismatic Association, as guest speaker.

A beautiful bronze convention medal will be presented to each person upon registration, the officials said. Sterling medals will be available at \$7.50 each with presentation cases of medals available at \$25, consisting of one each of bronze, sterling silver and gold filled.

Albert Sentes, 1271 Coric avenue, Burlington, Ontario, is chairman of the bourse committee; Eugene Culp, 8 Gerrard Street, Hamilton, is exhibit chairman.

Classifications for the exhibits will include Canadian decimal coins, tokens, paper money, U.S. coins, Commonwealth coins, gold coins, foreign coins, ancient coins, decorations, medals and medallions and non-Canadian paper money.

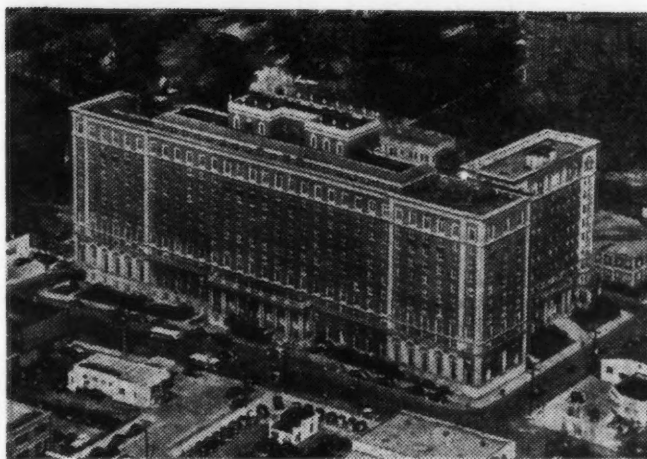

"All displays will be insured and security will be first class. We are looking forward to an unprecedented number of displays," Chairman Brace said.

Dr. John S. Wilkinson, Toronto, Ontario, is president of the C. N.A. Mrs. Louise Graham, Willoughby, Ontario, is general secretary and treasurer; A. E. H. Petrie, Ottawa, is editor of the C.N.A. Journal. R. C. Willey, Espanola, Ontario, is his assistant. T. G. Beatty, Ottawa, is librarian; A. D. Graham, Hull, Quebec, is his assistant. C. H. Hagger is advertising manager. His home is Port Arthur, Ontario. L. J. P. Brunet, Ottawa, is historian.

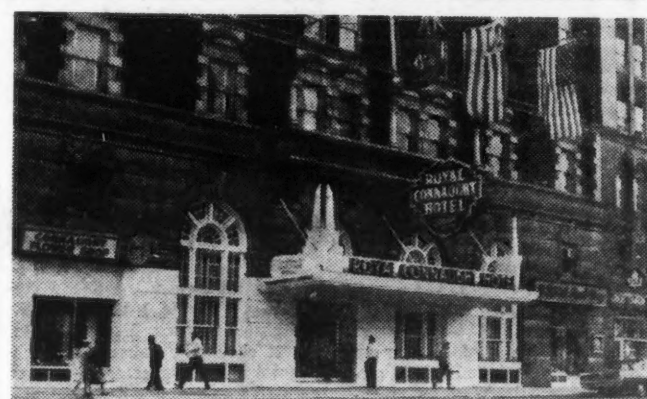

Father Of Year Collector Of Coins

John F. Edmunds, subject of a recent feature in the Roanoke, Va., World-News, said in a few years he is looking forward to his two great hobby interests—coins and antique cars.

A lifelong railroad employee, Edmunds was named father of the year in the family life category. He is the father of four sons—including twins.

Atlanta Meet Expected To Break Record

Historic Atlanta, Ga., will be the mecca for the nation's numismatists August 16-19 when they gather with their families and friends for the 70th annual convention of the American Numismatic Association at the Atlanta Biltmore Hotel.

"Come and see the superb exhibits, the cream of the numismatic crop," urged convention officials. "Shop around at the dealers' bourse tables where you can meet in person the people with whom you have been corresponding."

The important business sessions, learning to know officers who shoulder the administrative responsibilities of the A.N.A., and the newly-elected officers (this is an election year) are also high on the list of events.

Accommodations are being located—with typical and gracious southern hospitality—for every numismatist who seeks lodging, even the late-deciders, George M. Todd, convention chairman said as he surveyed a record-breaking reservation list.

Jim Kelly of World Numismatics, Inc., Dayton, Ohio, promises a lively auction session; top-flight numismatists will appear during the Educational Program, and the reception and banquet on Saturday evening will feature special prizes including a \$20 gold piece.

Miss Margaret C. McAuley, publicity director for the 1961 convention, said other well-scheduled activities will leave no time for boredom for any member of the family. There will be sightseeing tours of the city (a "must," especially for Civil War enthusiasts), two fashion shows for the ladies. There will be parties for teenagers, and a special tour to delight the children under 12 years.

"A special treat for each member of the family—you will become a gold-miner!", said Miss McAuley. "Well, at least a gold-panner. We're gonna strike it rich at Dahlonega! The site of America's first gold rush will be rediscovered by conventioners on a one-day guided tour to the gold mines at Dahlonega where you'll pan for gold! And remember to bring a swimsuit—there's a fabulous outdoor pool at the hotel."

For last-minute information and assistance in plans, write the convention committee at P. O. Box 234, Atlanta 1, Georgia, invites General Chairman Todd who says "Welcome South, everybody!"

"Oldtime numismatists who trek each year to conventions are familiar with the usual convention features,....but they know, too, that each annual meeting is unique, different and new in its own individual way. For the newer A.N.A. members a first convention is a thrilling and unforgettable experience," he concluded.

Cent Rarity Reported

A cent reported to be a 1943 copper specimen was reported by a Waterloo, N. Y., collector. Russell Sterlizza said he found the cent while he was sorting parking meter change.

Father Seeks Dealer-Son

"Charles 'Ed' Rockwell Jr., call home immediately! Everyone worried and wanting to hear from you."

This urgent appeal went forth today from a concerned father who is seeking the whereabouts of his coin dealer-son who has been missing since May 7.

Charles Rockwell Sr., of 4514 Pike Avenue, North Little Rock, Ark., is appealing through the Coin World in an effort to locate his son, last heard from on the closing day of the coin convention held at Little Rock May 6-7.

He had his display at the convention, the senior Rockwell said, and he was scheduled to return to his home on Sunday, May 7, about 7 o'clock. He was last seen about 3 p.m. on that date, according to the father.

He is 23 years of age, according to Rockwell, and has been in the

coin business several months. He had about \$800 worth of coins when he disappeared, his father said.

Anyone having information of his whereabouts is asked to write or telephone Skyline 3-1974 collect.

Farthings Adorn Knives

British officials who continue to ponder the whereabouts of the farthings—the discontinued little coins of history—learned where 960,000 of them have gone—a cutlery firm bought that number to decorate knife handles.

Another company bought farthings to make washers as this method was cheaper than producing bronze washers from scratch.

A count shows that only 480,000 of the 749,520,000 farthings minted since 1860 have been turned over to the British banks.

The value of the unrecovered money totals \$2,184,000.

Michigan Man Opens Branch

Elliot M. Katt announces the opening of a coin and stamp department at the Oak Park, Michigan, Drugs at the Oak Park Plaza, 9 mile and Coolidge.

He is carrying a full line of supplies, U. S., Canadian and foreign coins. Katt was formerly a partner with the Dick's Toytown firm.

Hours of his new department will be Monday through Friday, 10 a.m. to 5 p.m. and 7 to 9 p.m.; Saturday, 10 a.m. to 6 p.m. and Sunday, 10 a.m. to 3 p.m.

His mailing address is Elliot M. Katt, P. O. Box 3761, Oak Park, Michigan.

Coin Company Purchases Lake

The Empire Coin Co., of Binghamton, N. Y., headed by Q. David Bowers and James F. Ruddy, have recently purchased Phantom Lake near Owego, N. Y.

The lake is one of the largest private lakes in the southern tier of New York state and will be used as a recreation site for members of the Empire Coin Company staff.

The 42-acre lake situated on over 200 acres of land has been renamed Lake Empire.

DeKalb Club Will Host Special Atlanta Tour

The DeKalb Coin Club of Decatur, Ga., known as the "largest, youngest club in the world," is making plans to assist in the entertainment of numismatists who will attend the American Numismatic Association convention in Atlanta this month.

During the convention the De Kalb club will sponsor a tour to the numismatically famous Stone Mountain, located in DeKalb County. Tours will be free for those registering for them on Wednesday and Saturday.

Stone Mountain, the club reminds, is the largest exposed unit of granite known. Standing some 800 feet above the flat Georgia red land, this mountain can be seen for many miles.

At present, the club points out, the area is undergoing tremendous expansion with a railroad station beneath the famous unfinished carving of the Confederate officers.

Soon a railroad will be completed around the seven-mile base of the mountain with a sky lift to the top. There will still be the familiar walk up the sloping side of the mountain.

President Kenneth Frith extends an invitation to all persons who arrive in the Atlanta area before Monday, August 14, to attend the DeKalb meeting Monday night.

There will be a large auction followed by a trade and swap session. Average club attendance is 100-126 per meeting. More information may be received by writing to Frith at 3523 Tulp Drive, Decatur, Georgia, or by telephoning him at BUller 4-4462.

The DeKalb club was organized January 24, 1961, and in six months has grown to a membership of 185; 52 of these members are juniors.

Meetings are held the second Monday and fourth Friday of each month at the DeKalb County Federal Savings and Loan Association, 116 Clairmont Avenue, starting at 7:30 p.m.

New Club In Schoharie Area

Saturday, August 5, has been set for the second regular meeting of the recently formed Schoharie County, N.Y., Organization of Numismatics, to be held in Cobleskill at the Eagles hall, starting at 8 p.m.

Any interested coin collectors in the area are invited to attend, according to newly elected secretary, Mrs. Elizabeth Jane Jones of Portlandville, N. Y. Other officers, chosen in June, include:

Thomas Spennello, Howes Cave, N. Y., president; Alton Slingerland, Howes Cave, vice president; and Clem K. Falzarano, Cobleskill, treasurer; executive board, David W. Nethaway, George Kroder, George Phillips, Virginia Kintz and John Redjives.

Saturday's meeting will be followed by an auction, Mrs. Jones said. The original charter membership in the group, to be known as S.C.O.N., numbered 52 persons.

Alaska Medal Worker Killed

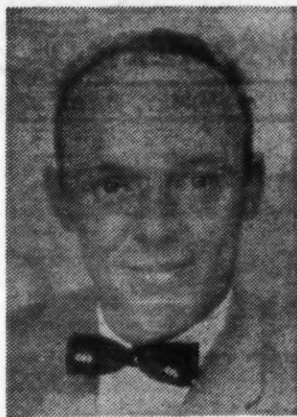

Funeral services for Jerry Hines, who was killed in an aircraft accident in Washington recently, were held at San Point Naval Air Station, Seattle, on June 30.

Hines worked closely with the Fairbanks Chamber of Commerce on the Alaska "gold dollar" medalion program which provided funds for the construction of the Chamber Log Cabin.

He was vice president of Bozell and Jacobs advertising agency and a member of the naval reserves, according to the Fairbanks, Alaska, News Miner.

Wanted Poster Goes Up For Dan McBride

Daniel Jerome McBride

Daniel Jerome McBride, alias Ned Davis, elusive fugitive from an Atlanta, Ga., grand jury indictment, can see his likeness looking down from every post office in the country these days.

The photo is included in a "Wanted for Mail Fraud" poster issued from the Atlanta Postal Inspector in Charge, Post Office Department.

It carries the 1959 picture of McBride along with this description:

White, age 32 (born 1-31-29); height, 5 feet, 8 inches, weight, 165-170 pounds, brown eyes; red hair; medium complexion; teeth, bad—front stained; occupations, coin collector and insurance salesman; has preference for Buick automobiles.

The poster continues that Daniel Jerome McBride was indicted by a Federal Grand Jury in Atlanta, Ga., March 2, 1961, for use of the mails in furtherance of a scheme to defraud in failing to pay for coins and the mailing of worthless checks.

The United States marshal in Atlanta holds a warrant for the arrest of McBride. If he is located, the poster advises, his immediate arrest should be caused, and the nearest postal inspector should be notified by telephone or telegraph, collect. The Atlanta telephone is MUrray 8-3517, Ext. 231.

Alert Coin World readers almost trapped McBride in November of last year. Members of the Reading, Pa., Coin Club recognized a picture of him, published in Coin World, as their new member, "Ned E. Davis."

McBride-Davis, however, was inadvertently alerted, and vanished after he closed out his checking account and a safety deposit box. He had opened a coin store in Reading a short time earlier.

McBride made his first disappearance in the spring of 1960 from Washington, D. C., with a reported \$15,000 on his person. He was in the capital to buy coins for several dealers. His bride of six months in Atlanta was convinced he had met with foul play. His alleged fiancée in Reading suffered from shock when officials told her McBride-Davis had vanished.

Coin Find Revealed By Group

Coins are among the many important discoveries made by a recent archaeological expedition to the Dead Sea, according to reports by the group's leaders, the Youngstown, Ohio, Jewish Times reveals.

The expedition explored the site and vicinity of last year's finds from the period of Shimon Bar-Cochba, who rebelled against the Romans in the second century.

Dr. Yohanan Aharoni reported on the coins and weapons from Bar-Cochba's times which his group found. Three strata of settlement were found under a landslide—Chalcolithic, Israelite and Roman.

Top Specialist Explains Recent Numismatic Error

Gerald Gee of Delta, Ohio, has sent in a 1960 or 1961 cent for which he would like an explanation. The reverse seems normal, the cent is about one and one-half times thicker than normal, and the obverse is "way out".

On this side, the coin is "dished", Lincoln's head and shoulders have enlarged and reach from rim to rim, while "Liberty" and the date run off the left and right edge, respectively so that "Li" and the final digit in the date are not there. The motto is entirely missing, with Lincoln's hair taking up the space where the motto should be.

We sent this coin to expert Charles Schermerhorn, whom we consider one of the top men in the field of numismatic errors. His explanation is quite technical but extremely complete and detailed. We think it worth publishing because it shows some of the peculiar things that can happen in

the course of minting a coin. What Mr. Gee has, in brief, is called by Schermerhorn "An Enlarged and Embossed Portrait of Lincoln on a Normal Diameter Cent Planchet".

By Charles W. Schermerhorn

"This is a most unusual error, and could have happened one of two ways, the first by having a Lincoln cent struck normally and being left in the die by a malfunction of the ejector mechanism and having a new planchet placed on top of the already struck coin, and then the two pieces struck again and together."

The top piece would be an incused coin or wrongly termed "brockage coin", with the obverse side taking the normal embossed die impression of Lincoln, and the reverse having an incused impression of Lincoln from the original coin already struck and on the bottom die, which is the reverse die of a coin. This bottom coin with the enlarged and embossed portrait of Lincoln is the one I am describing.

The great over-size of the portrait of Lincoln and lettering is due to die adjustment and lost motion in thrust action of press. If the die has been set very close to take up most of the play in the thrust action of the press and with the thickness of the two planchets in between the dies at the same time causes a great pressure and a displacement of metal, the bottom coin being within the ring collar, can not spread or increase in diameter, that being the primary purpose of the ring collar's function.

But the ring collar is only a little thicker than the coin itself, extending a little beyond the surface of each die, therefore the top or second planchet would be mostly above the collar and would be free to widen out in all directions, but only on the bottom side of this top planchet, as the top or obverse side is in contact with the die and can not move so readily.

This spreading increases the incused impression of Lincoln and carries the embossed design of the bottom coin along with it, greatly increasing its size, but as the bottom coin is in the collar its diameter can not increase, its center

depresses, making it thinner and it pushes up on the outside perimeter to the height of the ring collar making the edge thicker.

The center of this coin is .051 of an inch and the rim is .070 of an inch thick, whereas a normal cent has a center thickness of about .056 and an edge of only .060. I call these dished coins, and they come in many varieties some incused, some embossed, and of obverse or reverse according to circumstances involved. The weight of this coin is about normal, 46% grains, a cent is supposed to weigh about 48 gr., but one to three grains variation is common in all copper and nickel coins.

"Now, due to the missing motto and part of liberty and date, I would prefer the second way of this error happening as the correct one, which involves a third coin or planchet. The process is the same as before up to this point, but the bottom coin is now ejected and a new or third planchet is placed within the ring collar, and the top coin which has an incused and enlarged portrait of Lincoln on the bottom side, is rolled up around the die, and is held there by suction or pressure, and is lifted with the die and remains in the press.

"These are known as cupped coins of which I have several. The terminology I use to describe a coin stuck to the top die is, "capped die". This cupped coin on top die now acts as an enlarged die for the new planchet or third coin, which accounts for part of liberty, date and all of the motto to be missing, and from this last striking we still get further enlargement such as we have here.

"To estimate the degree of enlargement I have measured the distance from the tip of Lincoln's nose in a straight line over the top of his ear to the back of his head. On a normal cent this measures .313 of an inch, and on this mint error it measures .407 of an inch, which is an increase of 30 per cent or nearly 1/3 again larger.

"We now have three errors and could have many more if the die cap is not removed or falls off, as generally happens because each strike increases the diameter of the cup so that it no longer clings to the die. I have some of these cupped coins that were struck so many times that you can no longer make out the design on the bottom of the coin, then I have some that are perfect. It

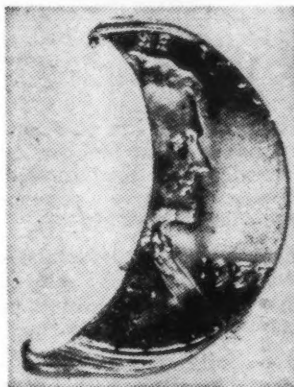

Tokens Were Topic

Next meeting of the Norwalk, Calif., Coin Club is scheduled to be held on Monday, August 7, at the Woman's Clubhouse, starting at 7:30 p.m. At the last meeting, Dan Williams was slated to speak on "Civil War and Hard Times Tokens".

must take several strikes to make a cupped coin."

We like that explanation in part because it explains a lot more than the particular errors involved in Mr. Gee's coin. Anywhere along the line, a planchet could become disengaged from the die or the press, and a different type or degree of error would result.

The collector should keep in mind that all coins are struck by the dies several times, the first time for the general outline, each additional strike giving more detail to the coin. Keep in mind, also, that the metal planchet is soft at the time of striking, comparatively speaking, and the pressure is in many tons. So, we say again, anything can happen at the Mint, and sometimes it does.

Along the line of Mint errors, Walter L. Weaver of West Belmar, N. J., sent us in quite a few, some time ago, and is understandably anxious to get them back. He will, but in the meantime, we print a picture of one of them, a rather nice example of a "clipped" coin, complete with date. This was caused by part of the metal bar from which a planchet had already been cut, moving in place to be struck.

Conflicting Show Dates

One of the most frustrating times in the life of a convention chairman comes after he has worked months, or sometimes years, planning a convention, and then another club announces a nearby convention on the same weekend.

Dick Johnson

We have had several instances recently when clubs have sponsored conventions less than a hundred miles apart at the same time.

The popularity of coin conventions is growing. During the next four months, August through November, some 72 conventions are already scheduled, according to Coin World's calendar of future events. From two to eight will occur every weekend in this period!

When properly managed, a coin convention will bring a profit to the sponsoring club's treasury. But it is certainly poor management to schedule a conflicting date with another nearby convention.

What happens when two conventions fall on the same date? First of all, your bourse dealers are divided between the two. Attendance at both conventions are split. Neither convention has the drawing power that a non-conflicting time would provide. Worst of all, the confusion probably causes a lot of collectors to stay away from both.

When the chairman of each convention learns about the other event, the reaction is always the same: "Well, let them change their date!"

It takes real courage to meet with the officers of the other club and solve the problem. The attitude of plunging ahead without regard for the other organization only results in disaster for both.

Just remember, a later date is better than a conflicting date!

Now let me ask the question: Could this problem be solved before it arises? Is it a matter of communications?

For several years, Floyd Watkins of Canton, Ohio, has been a clearinghouse for the coin conventions scheduled in the state of Ohio. Club officials knew there was one man who could tell them if their chosen convention date was in conflict with any other in the state.

The plan worked fairly well. But would it work on a nationwide basis?

As we swing into an unusually heavy fall schedule of coin conventions there will undoubtedly appear more conflicting show dates. Chairmen of 1962 conventions should be setting their dates now.

We will offer here at Coin World to be a clearinghouse for the entire country. We have placed a box in our calendar of events asking chairmen to send us their proposed show dates. We welcome these as soon as possible.

We will print the convention item in our calendar as soon as we have the full information (see page 51 of this issue). We will run these up to six months in advance of the date, but will have information even further along.

If you are planning a convention, call us or write us. We will be glad to give you the information about conventions already scheduled in your area. A phone call or letter now would save many frustrated hours later.

Wig Comes From Coin

The wig which Actor George Sanders wore in the film, Forever Amber, when he played the role of Charles II, was modeled after the monarch's likeness on a 20-shilling piece.

Mint Makes Exception

The Royal Mint of Britain stopped striking guineas in the late 1700's, but resumed one time when it struck enough guineas to pay its soldiers fighting in Spain and Portugal in 1813.

Letters To The Editor

I am a very mild-mannered individual, but occasionally I see red. This rare occurrence came about when I read the letter from W. G. Florence of Dorchester, Mass., in the June 30 edition of Coin World.

Mr. Florence attacked the entire medal field in general and Coin World in particular for publishing medallic advertising. As both a newspaper publisher and a professional medalist, I doubly resent his allegation that no numismatic paper should carry ads for "this trash."

I am certain that no one forces him to read ads for medals, tokens, paper money, wooden nickels or anything else which does not interest him. However, if he would take the time to consult Mr. Webster on the subject of the word "numismatic" which he uses so carelessly, he would find that it pertains to "the science of coins, tokens, medals, paper money and other related items." A paper which did not carry these items would not be worthy of the name of being a truly numismatic publication.

Mr. Florence (and many others who have complained about your carrying legitimate ads of one type or another) should be informed that it is the right of a newspaper to carry any matter it pleases unless it is "lewd, salacious or not in the public interest."

I am a coin collector myself. I also collect paper money, medals, tokens and some wooden money. There are some items which do not interest me, such as mint errors, for instance. However, I do not feel that I, or any other collector, has the right to criticize any collector's field of specialty, nor he to criticize mine.

Medals represent some of the finest art work available in the world today, and, admittedly, some of the poorest. However, good or bad, any collector has the right to accumulate and enjoy them, Mr. Florence notwithstanding.

I'm a new subscriber to Coin World. I've ordered coins from some of the coin dealers advertised in Coin World. I only order from the dealers who belong to the American Numismatic Association or other coin associations. What I want to say is this: I see bargains listed by other coin dealers where I could save some money or rather their prices or lower, but I don't take a chance on ordering from any dealers that don't belong to the A.N.A.

Is this a good policy to follow? I'd think a good coin dealer would belong to the A.N.A. Would you recommend a non-member dealer? What protection do you have if the merchandise or services are below standard?

D. W. Dickerhoff
East Canton, Ohio.

Even as I read your July 21 issue I am amazed at the utter gall exhibited by your paper. Your pious front page article and editorial preaching in regard to the "Stoll - Jerome - Anderson - Tanner" situation falls just a trifle flat with me when I observe that on page 49 (classified section 74) there is an advertisement still being published by you that offers super-bargains in uncirculated coins and sets.

This advertisement bears the name (and address) of the same "Bill Tanner" that you describe so fully in your page one article as an alias of Floyd Stoll, the accused.

It would appear that your paper might devote a little more time screening such advertisements and maybe let up a little on finding new ways of increasing advertising and subscription rates.

Many thanks for the article covering our convention in Tulsa October 13-15....the coin clubs of Oklahoma and Kansas are very

pleased with the article.....

Thanks for the great job your staff has done in setting up our ad. The Manassas medallions are selling very well in both silver and bronze. Collectors are especially buying the silver issue fast. At the present rate we will be completely sold out of the 2,000 serially numbered pieces by the end of August. Many collectors are asking for "low numbers." It would be impossible to satisfy all their requests. However, I am doing my best to please everyone.

We are beginning to plan for the second issue of the Civil War series. Announcement will come later in this year.

Dear editor, here is a reply to Mr. Joseph A. Leone's letter that would suit 99.99 per cent of your subscribers:

Mr. Leone: I would rather presume that you have learned of

your mistake by now, for Coin World has many loyal subscribers that would readily reprieve your written allegations of a slanderous nature which surely demand substantiation. So there!

.....Many of your letters complain about medals, etc., not being associated with coins, and you should not accept this advertising.

Take all the advertising you can get. Let those who want to collect medals, collect medals, and those who want to collect coins, collect coins. Not everyone has the same likes and dislikes. We like what we collect or we wouldn't collect at all. Like the old lady said when she kissed the pig, "Everyone to his own choice!" Keep up the good work on your paper.

I wish to inform you that I would enjoy your paper just as much if it came out every two weeks or even twice a month. As it is it just simply comes too often. There are issues which I never look at before the next one comes. Enclosed is my check for \$3 to extend my subscription for one year.

Maurice Denney

Congratulations on the drawing power of your paper. I had unbelievable response to my recent ad on nickels.

Phelps D. Witter

Enclosed find my checks for one additional year of Coin World which is all you will allow me at the old rate.

I have enjoyed your publication but believe success is going to your heads. First, you increased your ad rates, and now it's your subscription rates. Well, personally I'm getting off of your rocket to the moon before the third stage goes off. When this subscription expires I will return to my former numismatic publication which has remained steady through the years.

Coin World Editor Guest Speaker At North East Ohio Club Session

"Coin collecting is now the number one collecting hobby in America," said Coin World editor D. Wayne Johnson, in a speech July 20 at the meeting of the North East Ohio Coin Club, Cleveland, held on the eve of their second annual convention.

This observation was based up-

on the fact that Coin World has now passed the 70,000 net paid circulation mark with its July 28th issue. New subscriptions continue to come into the circulation office from all parts of the nation.

"Coin World is printed in Sidney, Ohio, on the same press as

Linn's Weekly Stamp News and this was the first time that the numismatic weekly paper had passed the total circulation of the philatelic weekly," the editor continued.

Linn's Weekly Stamp News is the world's largest philatelic weekly and has been established for two decades.

"This remarkable feat indicates to us that coin collecting is now the number one collecting hobby and is still growing," Johnson explained.

Gathered before the three-day convention in the Statler Hilton hotel, the crowd of 400 people were the guests of the N.E.O.C.C. at the club's regular meeting held the night before the convention.

Johnson told of the advancement of coin collecting in his talk, and the recent increase in number of collectors.

He also mentioned the evils in coin collecting, and the good things available to collectors.

He pointed out the methods of combating coin thefts, one of the greatest evils, by placing coins in safe deposit boxes, by insurance, by labeling all albums and holders, and by not leaving coins in unattended cars.

"Don't accept altered date coins!" exclaimed the editor in reporting on the activity of spurious items available to collectors. "Don't accept counterfeit coins, treated nickels, or plated coins," he added.

Collectors should make opportunities to better their relationships with bankers, since some bankers have come to dislike coin collectors, he reported.

"Bankers generally have taken one of two views about collectors: either 'they are pests—get them out of the bank'; or 'let's make a buck off them,'" he said.

The Cleveland Federal Reserve Bank is the worst, he told the listeners, because of their practice of mixing uncirculated and circulated coins to thwart the collector of new coins.

Collectors are faddish, the editor said. He pointed out that instead of collecting something everyone else is interested in, the numismatist should develop his own series.

"Collect what you want to collect because it gives you pleasure!" he said.

Arthur Bahr, Cleveland, president of the coin club presided at the pre-convention meeting. Herman Pressman introduced Johnson.

A 100 lot auction was conducted by Carl Di Falco.

This pair of pistols has the flint-lock hammer, with percussion firing, but are original, not conversions. American duelling sets are much rarer than European sets. Each pistol in the matched pair is about 17 1/2 inches overall, with octagon barrels. All housed in fitted leather case, with usual accessories. In "like new" condition, and no doubt worth a lot more than \$2500.00 (Will trade this duelling set for Complete Set Comm. Half Dollars and pay you the difference. The Mrs.: "But have you got the coins to fill the orders?"

Johnson: "You know Johnson wouldn't advertise anything he hasn't got!"

The Mrs.: "How about the time you advertised Ex. Fine 1928 Dollars for \$8.00 each, and the hundreds of checks you had to send back?"

Johnson: "Don't remind me of it, that's one time the 14th Redbook was a little off!"

Trends Of Today's U.S. Coin Values

Active Fall Season Is Forecast

By Jim Kelly

333 West First St., Dayton 2, Ohio

While there has been quite a lot of numismatic activity, buying and advertising has slowed down considerably during the past month. Consequently, there has not been a great number of price changes in U.S. Coin Trends. We have noticed that many collectors will readily buy something they have been looking for for quite some time, or something which they need badly to complete a set, but other than this they seem to be content to wait for the fall season or possibly the A.N.A. Convention to be held in Atlanta in mid-August.

Jim Kelly

While we did not attend the recent North East Ohio convention in Cleveland, we received word that attendance was up to expectations and the dealers we talked to were satisfied with business. Even during the present dull season, choice and rare gold coins are in demand, the same being true of small cents and commemorative half dollars.

Personally we look forward to a very active fall season and with the limited amount of material available, prices of choice and key coins will certainly remain steady and most likely advance in price.

Chicago Show To Be Giant

A three-day show "made to order for the collector and the dealer" is the Chicago Coin Club's Fall Festival of coins, chairman Harry X Boosel, 65 E. Water Street, Chicago, 1, Ill., pointed out today. Dates are October 13-15.

Boosel said there will be one of the finest exhibits of coins ever put together in the Mid West with 100 bourse tables where dealers will display all types of coins and supplies.

The Festival, to be held at the

Hotel Sherman, will probably set a new record for attendance, the chairman predicted as he pointed out this would be the first major coin show for Chicago in years.

Boosel can be contacted for further information at the Water Street address.

"We hope we shall have the pleasure of seeing and meeting you here," said Boosel as he urged both collectors and dealers to plan to attend.

"I tell you he's one of the great numismatic writers of our time . . . gotta' real symbolic message for us if we could delve beneath his relative catalog prices!"

Festival Soon At St. Louis

Preparations for the St. Louis Coin Festival sponsored by the Missouri Numismatic Society for August 12 and 13 at the Statler Hotel, 9th and Washington, "are moving right along," commented David L. Cooper, the show's general chairman.

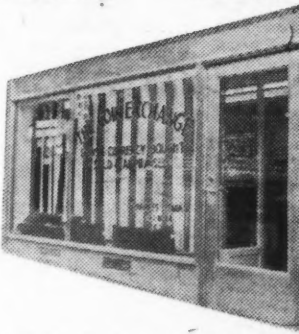

Eight-foot bourse tables are still available at \$20.00 apiece for both days said Cooper. He may be contacted for reservations at 3500 Ridgedale, St. Louis 20, Mo.

Auctions consisting of 75 lots each will be held on Saturday night and on Sunday afternoon.

BEST NEWS IN YEARS FOR COIN COLLECTORS

Toivo Johnson takes a great deal of pleasure in bringing to his coin friends, the first beautiful medal in the COIN MEDALS series,

The Official AUGUSTUS SAINT-GAUDENS COMMEMORATIVE MEDAL

While this medal will be ready for delivery in about 30 days, we do not as yet have pictures of it for publication. But we will do the best we can by word description.

The idea or theme of COIN MEDALS, is to commemorate great coin designers, the men who made the coins we collect. Other medals to follow, equally as beautiful as the Saint-Gaudens now offered, will commemorate Barber, Morgan, Brenner, and other names familiar to all collectors.

Each medal will depict on the obverse, the finest work of the coin designer. The reverse will have data pertinent to his life and work. Of course, these famous designers did nice work in coins, but in medallics they could really give free rein to their imagination and ability. In a coin, the sculptor or designer is hampered by the small area of the coin, by the lettering and mottoes he is required to fit into the small area, and by the low relief, as the coins have to stack.

The Official Augustus Saint-Gaudens Medal is issued with the approval of the Trustees of The Saint-Gaudens Memorial in Cornish, New Hampshire. Two of the bronze medals, and the Number 1 and Number 2 of the serially numbered silver medals, will be put on permanent display in the Memorial Museum. These will be seen by thousands of visitors each year.

Now, to describe the Augustus Saint-Gaudens Medal,

OVERSE: One of the finest medallic works of Saint-Gaudens, done by him in 1892, perhaps at the height of his career, for the Worlds Columbian Exposition. This medal is a private award medal, and as such, is very rare. It is Saint-Gaudens magnificent interpretation of the Discovery of America, showing Columbus stepping on the soil of the New World. Columbus' arms are outstretched, in humble gratitude to the Creator, for making his long voyage successful. A plaster cast of this Columbus is on display in the Memorial.

REVERSE: A depiction of Saint-Gaudens beautiful home and studio "Aspet", in Cornish, New Hampshire, where he lived, worked, and died in 1907. In the sky over the house, like a setting sun, is shown his famous Roman date Double Eagle, acknowledged the most beautiful American coin. This is truly an artistic presentation, as the sun did set on the famous sculptor's career the same year he designed the coin.

The Saint-Gaudens medal is being struck by The Metal Arts Company of Rochester, New York, master craftsmen in bronze and other metals. Any town, city, coin club, etc. desiring to commemorate some event with anything from a token to the finest medal, will do well to contact this company.

The Saint-Gaudens medal will be of 3 inch diameter, as all COIN MEDALS to follow. It weighs about 7½ ounces in bronze, and the .999 pure silver medal, being of the same thickness, weighs over 8 ounces. The silver medals will be serially numbered on the edge, and the issue will be limited to not over 5000. This is only one-half the number of Hawaii Half Dollars minted, and with the wide-spread interest COIN MEDALS will have, I can sincerely predict the Saint-Gaudens silver medal will be more difficult to obtain in a few years than the coin mentioned.

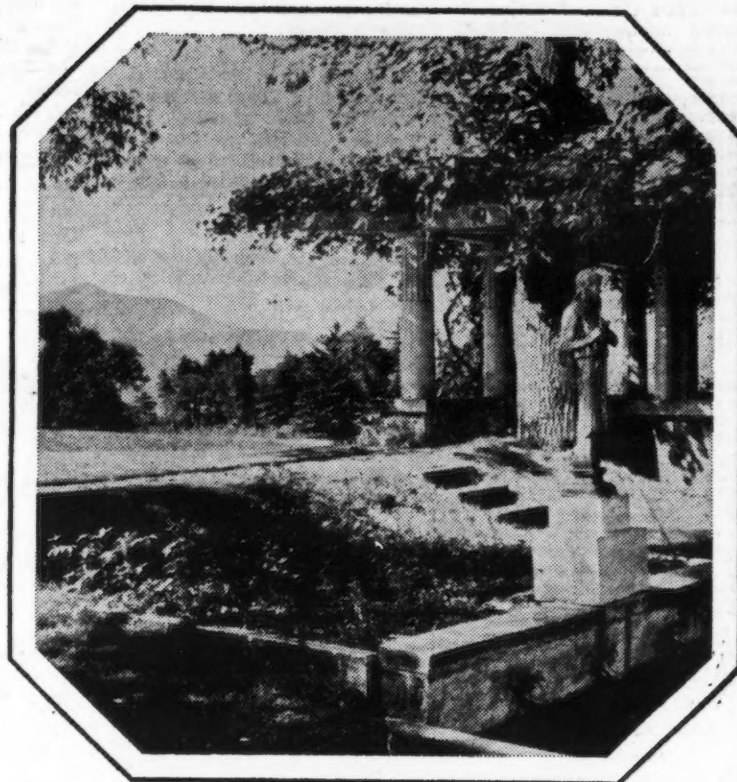

You can order now, for delivery in about 30 days.

The bronze medal is \$5.50, or two for \$10.00.

With appropriate holders and stands to be available later, two medals will afford a simultaneous view of the obverse and reverse.

**Introductory price on the silver medal
is a comparatively low \$27.50**

So we suggest you order now, as it has been proven that the first silver medals in a series are the most difficult to obtain later. Silver medal orders will receive acknowledgement of the order, with indication of the serial number of your medal.

SAINT - GAUDENS MUSEUM AT CORNISH NEW HAMPSHIRE

Illustrated above, is a corner of Saint-Gaudens studio in his former Home "Aspet". Every coin collector should visit this Memorial to our greatest sculptor, when his vacation takes him to the New Hampshire area. Therein, you will see many of his works.

The Memorial is directly across the Connecticut River from the beautiful town of Windsor, Vermont, and you drive across the river through one of the longest covered bridges in the world.

An art critic once said of the Memorial, "There is nothing about the Museum more important than just its enforcement of the deep sincerity, the high integrity of sculpture as Saint-Gaudens practiced it. I think of the Museum as upholding a fine standard. It is full of charm and beauty but most of all it seems to me to embody the conscience of a great artist".

The Memorial is open to the public from May 30 to October 15.

Missouri Society Names Officers To Serve Again

Missouri Numismatic Society members re-elected all of the present officers at a recent meeting of the group, held at Hotel Claridge, St. Louis.

Officially starting a new term September 1 are: President, Edward Boehme Sr., vice president, Albert H. Wick; secretary, Mrs. Bernice Stevenson; treasurer, John Stevenson; board of governors, chairman, Christian Schlather, Joseph Rataj, Charles A. Page and Tom Elder.

Officers are currently engaged in reviewing existing articles of association and by-laws with a view toward modernizing them to reflect present needs and organizational trends of a membership which has grown from the original 37 members to the present 250.

Program Chairman Joe Rataj narrated American Numismatic Association slides showing various currency, but chiefly dealing with the \$5 denomination.

At the July 10 session of the club, John Stevenson pointed out that the brass and aluminum tokens issued by the Alaska Rural Rehabilitation Corporation for use in the Matanuska Valley Colonization Project, and known as the Alaskan "bingles" of 1935, are the only U. S. government tokens authorized for use in Alaska.

Chairman Dave Cooper announced 40 bourse table reservations have been received for the club's Coin Festival on Saturday and Sunday, August 12 and 13, at Hotel Stater, St. Louis.

Brooklyn Club Meets On August 2

The Brooklyn, N. Y., Coin Club was scheduled to hold its August meeting on Wednesday, August 2, at the Hotel Granada, Ashland Place and Lafayette Avenue, Brooklyn, starting at 8 p.m., according to a report from secretary Robert H. Trimmer.

Trends Of Today's Canadian Coin Values

Interest Is High In Numismatics

By J. E. Charlton
80 Richmond St. East
Toronto 1, Ont., Canada

While this may not be considered the busiest time of the year for coin dealers and collectors, the writer is aware through orders, letters and visits that there is no lack of interest in numismatics during the holiday period. Many take advantage of their vacations to combine business and pleasure, calling at coin stores during their travels, and others attend the A.N.A. and C.N.A. conventions.

J. E. Charlton

During my visit to the A.N.A. convention in Atlanta I hope to meet many Coin World readers. This will be followed by the C.N.A. convention at Hamilton, Ontario on August 31 and September 1 and 2.

We will be handling the convention auction and have been very fortunate in receiving consignments of outstanding material for this sale.

This will be the 8th annual C.N.A. convention and from a humble beginning in 1954 at Toronto it has shown healthy growth. This year's promises to be the biggest and best in every respect and this is particularly true of the auction.

Over 2700 lots will be sold including a wide range of outstanding Canadian and U. S. coins, tokens and bills plus many rare coins of other countries.

Auction catalogues will be mailed to all C.N.A. members and to those on our mailing list. Others may obtain a copy by writing to our Toronto address.

LARGE CENTS

NOTE: Large Cents in Br. Unc. seldom obtainable and command a premium of 50 per cent to 75 per cent over Unc. prices.

National Coin Week Winners

Winner Schedules NCW Exhibits

Jay R. MacHugh, Little Rock, Ark., winner of third place in the National Coin Week individual competition, said his idea in participation this year was to devote all of National Coin Week to an informative and interesting series of displays, in a location that would offer a full 9-to-5 business day open to the public.

MacHugh tells how he developed the prize-winning plan here:

By Jay R. MacHugh

After considering a number of downtown Little Rock locations, Robert Schonhoff, advertising manager of Pfeifers of Arkansas Dept. Store, offered to set up a wonderful well lighted display case in the credit offices of Pfeifers. Mr. Schonhoff also had the display department to make attractive announcement signs for the Main Street windows of the store. One of the signs can be seen in the background of the picture on page 24 of your May 25th issue.

For several years I was interior designer for Pfeifers and thus I was familiar with the routine of the store and acquainted with quite a few of the customers. This factor established confidence for the free appraisal service offered for coins and currency of all types.

For reference material I had on hand 35 catalogues and recent auction lists of some of the more important sales of the past two years. I appraised 6,245 items and bought 85 per cent of the material brought in for appraisal.

One of the most interesting items purchased was an AU Greek

silver dekadrachm struck about 408 B.C. in Syracuse, Sicily. The coin is pictured on page 18 and 38 of "An Outline of Ancient Greek Coins" by Klawans.

Other items included 45 Spanish pieces of eight, many with counterstamps of Brazil and Portugal, Russian Imperial copper, silver and gold and a number of Roman Republican silver Denarii.

The exhibits were changed each day to provide a numismatic historical study from 400 B.C. to 1960 small date proofs:

Monday: Coins of the Ancient World—Greece, Syria, Egypt, Rome.

Tuesday: Bronze, silver and gold of the Byzantine Empire; Medieval issues from the Crusader Kingdom of Antioch, England and France.

Wednesday: Coins of the middle ages through the reign of Elizabeth I of England.

Thursday: "Children's Day" Pirate Type Money Spanish gold and silver pieces, Items of the Empire of Portugal, Ecus of France and etc.

Friday: Coins of the United States, a complete-type set of copper, silver and gold. Also issues of Canada, Central and South America.

Saturday: Modern coins and currency of the world, 150 different notes of the Confederate States of America, a 24 oz bar of silver from the San Francisco mint and Indian trade beads.

This desk in J. R. MacHugh's apartment is an 18th century leather covered Spanish sea captain's map case . . . here the National Coin Week winner is sorting and classifying a number of recently acquired items of the Spanish empire.

(Continued from Page 14)

J. R. MacHugh is shown in the top photo with a case of coins, medals and other numismatic material. The string of Sioux buffalo beads he holds would at one time buy a wife or two ponies; they are blue glass and bone strung on rawhide and are in perfect condition. In the lower photo he is shown at his desk in his study with items which caught his eye during world travels. The cannon in the foreground is a model of an 18th century field piece. The small exhibit case is filled with gold and silver pieces from ancient empires.

Augusta Issues Silver Medal

Augusta, Ga., has issued a silver medal commemorating the centennial year of the Civil War, according to James Harbin, president of the Augusta Merchants' Association.

The medals are the size of a silver dollar and show the Broad

street Confederate monument, the American and Confederate flags and the wording, "Augusta, Georgia—1861-1961" on the obverse.

The reverse shows the City-County building, the monument and the American and state of Georgia flags.

Only 5,000 of the medals were cast; they are numbered consecutively and the dies were destroyed at the end of this number. Special Confederate scrip has been issued by the merchants, too.

Medals may be ordered from the Augusta Merchants Association, P. O. Box 901, at \$3.50 each.

Roman Coins Subject For Fairborn Club

An exhibit and talk on Roman coins was presented by Lt. Robert Stevens during the regular meeting of the Fairborn Coin Club in the Broad Street Fire House at Fairborn, Ohio, near Wright Patterson AFB.

The membership enjoyed the complete program on Roman coins and were impressed by Steven's knowledge of them as well as the display which he had arranged for the presentation.

New members are actively being sought by this club by making announcement in the local paper prior to each meeting. There are 27 regular and one junior member on the roll and all were present for the session according to Al La Fleur, secretary.

During the business session, the club discussed the by-laws and these were approved and will be sent to the printer prior to the presentation at the next meeting.

The question of age and junior members was settled with 12 to 18 years of age being accepted. Junior members must also have the consent of parent or guardian and be vouched for by one member in good standing.

A lively auction conducted by Clifford D'Arcy, of the audit and grading committee, was enjoyed by the membership as the concluding phase of the session.

Coin World Advertising Policy...

NUMISMATIC ITEMS THAT CAN BE ADVERTISED

AND QUESTIONABLE ITEMS THAT CANNOT BE ADVERTISED

GOLD CERTIFICATES. Technically gold notes cannot be legally held in numismatic collections, therefore they cannot be advertised in Coin World. These include all Friedberg numbers 1166-b through 1225.

GOLD BARS. It is illegal for an individual to own current gold bars unless he holds a license issued by the government for this purpose. Current gold bars cannot be advertised.

1933 GOLD COINS. This pertains to the 1933 eagles and double eagles which apparently were not officially released. They cannot be advertised.

COUNTERFEITS. It is illegal to possess, buy or sell counterfeit coins or paper money. Some counterfeit Colonial and Continental paper money and broken bank notes are held in numismatic collections and are probably legal. However, we have adopted the policy that no counterfeits of any kind can be advertised in Coin World.

ALTERED DATE COINS. Coins with altered dates or altered mint marks are a fraud upon collectors. While not illegal at this time, legislation prohibiting these is pending in Congress. Since they are unethical in the coin field, they cannot be advertised in Coin World.

FAKE STARS. Fake stars on commemorative half dollars come within the realm of altered coins and therefore are unethical in the coin field. They cannot be advertised in Coin World.

STOLEN COINS. This should be obvious, but stolen property cannot be advertised since it is illegally held and title cannot pass to a new owner.

ALTERED CONDITION COINS. This category includes buffed or polished "proof" coins, where uncirculated coins are "doctored" until they look like proofs. It also includes coins treated with a chemical that brings out otherwise illegible dates or other worn-out features. (Where the entire coin is treated, a poor coin looks like a VG or better; however, closer inspection reveals the acid pits all over the surface.) These coins are of questionable ethics in the coin field and they, or their chemical, cannot be advertised in Coin World. This includes "replating" coins which is an attempt to change condition unnaturally.

PROCESSED 1943 CENTS. It is unethical in the coin field to advertise processed 1943 steel cents as "uncirculated" or "bright." Coin World will accept advertisements for 1943 processed cents only if the word "processed" or some synonym is included in the advertisement. "Replating" is not a synonym, but a different situation.

FACSIMILE PAPER MONEY. It is unethical in the coin field to advertise reprints of any paper money as genuine. Coin World will accept an advertisement for these only if the word "copy" or "facsimile" or some such synonym is printed ON THE BILL and included in the wording of the advertisement.

RESTRICKES. THESE FALL INTO THREE CATEGORIES:

1. Counterfeit Restrikes. These were made to pass at face value for legal coins, are a type of counterfeits, and are therefore illegal. They cannot be advertised.
2. Numismatic Restrikes. These include the fascimiles of Colonial coins made by Dickson, Wyatt, Tatham, Mickley, Idler, A. S. Robinson, Betts, and Bolen (described by Richard Kenney in his "Struck Copies of U.S. Coins"). This category also includes the restrikes of the Florida and Rhode Island tokens, certain half cents, large cents, and silver dollars. These are legitimate numismatic items and it is permissible to advertise them in Coin World. They should be described fully including the term "restrikes".
3. Copy Restrikes. These are copies of famous, scarce, or rare coins. They

may be accepted for advertising in Coin World but must bear the word "copy" or some such synonym STAMPED PERMANENTLY ON THE COIN. Also the word "copy" or some such synonym must appear in the advertising wording.

Samples should be sent to Coin World when the first advertisement is submitted. This policy holds true irrespective of the metal, size, or color of the copies made. However, copies in which only one side is used with a completely different reverse from the original, such as an advertising piece, can be accepted without the word "copy" struck on the coin.

SAUDI ARABIA GOLD DISCS. These coins, made in 1945-1947, have a questionable legal status and advertisements of these are accepted at the dealer's risk of confiscation by the U.S. Treasury.

OFF METAL ERRORS. These coins are struck on a metal for which they were not intended, like a quarter or nickel on a copper planchet. They are of questionable legal status at the present time and advertisements of these are accepted at the dealer's risk of confiscation by the U.S. Treasury.

RACKETEER NICKELS. These 1883 gold plated coins have a questionable legal status and advertisements of these coins are accepted at the dealer's risk of confiscation, whether coins are genuine or otherwise.

FOREIGN GOLD DATED AFTER 1933. The Treasury department has allowed some foreign gold coins dated after 1933 to remain in collectors hands, others it has confiscated. We prefer not to accept advertisements on these until the matter can be worked out with the authorities. This category, therefore, is questionable, and Coin World would accept advertisements of such only if a dealer insists, and then at his own risk.

ELECTROTYPES. These are copies of rare coins made to resemble the originals. They are made by museums, etc. They have a long history of collectibility and are completely legal. In advertisements, however, they must be labeled "electrotype."

ENGRAVED COINS. This category includes Masonic cents, elongated or rolled-out coins, and the "love tokens" of the last century. These are all U. S. coins that have been engraved. They are not intended to have been spent after the engraving, and have a long history of collectibility. They are legal, and can be advertised.

LUCKY OR FRAMED CENTS. These are discs, usually aluminum, with coins in the center. The coin is not mutilated. They are legal and have a long history of collectibility. They can be advertised.

PATTERN COINS. These are test coins made at the mint to test dies, designs, metals, etc., and include all pattern, trial, and experimental pieces. At infrequent times in the past, their legality has been questioned. However, they are completely legal. They were sold or released by the Mint and have a long history of collectibility. Any pattern coin can be advertised in Coin World.

NUMISMATIC ERRORS. With the exception of the questionable off-metal errors; numismatic or mint errors and freaks are completely legal, having been officially released from the Mint. They have a long history of collectibility. They can be accepted for advertising in Coin World.

CALIFORNIA GOLD TOKENS. These are tokens made in imitation of the gold dollars, halves and quarters. They are legal and have a long history of collectibility. They can be advertised, regardless of when made.

CONFEDERATE REPLICAS. These are replicas of the Confederate coins, officially authorized but never issued, and also those neither authorized nor issued and so are "fantasy" coins. They are legal and can be advertised as such.

Utah Group Advertises Monthly Meetings

The Utah Numismatic Society of Salt Lake City has adopted a new policy of placing an advertisement in the city newspapers a week or so before its monthly meetings, authorized by the club board of directors, according to a note in "The Mintmaster", Society bulletin.

It is believed by the board that there are many people in the area who have desirable coins, and the ads will call attention to the club meetings as a place to have those coins appraised. The hope is that either the coins will be sold to club members or their owners will become collectors and join the Society.

The statement concluded:

"The decision to try this advertising policy was brought on by the occasional appearance of coin agents in the city. These agents stop a few days and reap a harvest of key coins at depressed prices from uninformed persons.

"Our board feels that we could perform a worthwhile service by keeping these coins in our area and encouraging new collectors."

Another policy being considered by the directors is that of invest-

Manatee Club Changes Site

The Manatee Coin Club of Ellenton, Fla., which includes collectors from Bradenton, Palmetto and Manatee counties, will meet in the new Palmetto Federal Savings and Loan Building.

The club meet the second Wednesday of each month. Vernon L. Oblisk, of Bradenton, is president of the club; John W. Millington is secretary-treasurer.

Oblisk is a candidate for the American Numismatic Association Board of Governors, and the Manatee club is hard at work aiding him in his candidacy.

ing the club's extra cash in the treasury in coins, for resale to club members at a small profit in a year or two. The treasury would benefit, and so would the members. This includes bags of new coins, which many individual members cannot afford, but which can be sold by the roll later, to those same members.

Basis for this proposition is one of the club's purposes, namely, to be of service to its members, the Mintmaster stated.

Terra Alta Has Treat

Some special coins took a special trip, recently, when Ivan Felton of Anchorage, Alaska, paid a visit to his old home town of Terra Alta, W. Va.

Felton had planned the trip, but when he read in Coin World of the organization of the West Augusta Coin Club in Terra Alta, he decided to take part of his collection with him to exhibit at a club meeting, against the advice of Alaska friends who were afraid of what might happen to the coins on the trip.

So club president Bud White called a special meeting, without public notice, and Felton showed his coins. Among them were a complete set of uncirculated and proof small cents, from the 1856 Pattern Flying Eagle to the 1909-S; a complete set in proof of nickel three-cent coins from 1865 to 1889, and a complete set of uncirculated and proof commemorative half dollars.

Felton also showed one of the 45 gold Alaska Statehood medals authorized by Congress to be struck.

Siouxland Club Conducts Sale

A bust-type 1793 silver dollar sold for \$45 at the recent Siouxland Coin Collectors' Association auction, held at the Sheraton-Martin hotel in Sioux City, Iowa.

More than 60 persons attended the auction including visitors from Philadelphia, Pa., and Pierre, S. D. Other special coins sold included a Philippine collection, U. S. proof sets from 1951 to 1961, and gold pieces.

The club is currently busy with plans for its October 6-8 convention.

Washington Group To Meet On August 7

August 7 is the regular meeting night of the Washington, D. C., Numismatic Society. Bourse or traders' night was held July 27 in the Natural History Building.

Members were to pick up their Red Books at this session. Because of the hot weather, the August picnic has been cancelled.

Ray Byrne Club Guest

"The True Art of Coin Collecting" was the topic used by Ray Byrne, prominent Pittsburgh numismatist, at the meeting of the Greensburg Coin Club in the K. of C. Hall at Greensburg, Pa.

According to Virginia A. Lindh, corresponding secretary, the discussion was presented to 70 members and 15 guests.

A special exhibit of an 1895 silver dollar was available at the meeting plus a complete collection of proof Lincoln cents and numerous pattern coins.

Next meeting's feature, scheduled for July 30, was to feature an auction for club members.

Coin Used As Symbol

The Commercial Bank of Athens, Greece, used a color photo of the gold stater of King Philip of Macedon, 359-336 B.C., as its chief advertising symbol.

Ohio Numismatist Loses Thousands In Coin Robbery

Dr. Phillip S. Mahan, Warren, Ohio, numismatist, reports his home was broken into July 8, and two safes were taken containing his coin collection valued at \$7,500.

Among the items missing are two complete proof sets from 1936 through 1954; two complete gold sets, two type sets of silver, copper and nickel coins from 1793 to the present date in folders, a quantity of other proof sets and rolls of Indian and Lincoln cents plus a variety of 1,500 other Indian heads.

Dr. Mahan lost many other rare coins, an assortment of currency, three diamond rings, various personal papers and war bonds.

The house was entered through the back door; the window was broken to unlock the door.

A coin collection valued at approximately \$3,500 was stolen in a break-in at the Belk-Tyler Co., Goldsboro, N. C. Store Manager Sam H. Hocutt said the collection was insured.

A coin collection which took 23 years to accumulate, and one which included 900 coins was taken from the Kansas City home of Millard Shelby Jr., recently. Loss was estimated at \$1,700.

Bill Wind, 13-year-old Chicago collector, reports to police his coin collection valued at \$406.30 was stolen from his home.

A young boy and girl took rare coins, face value between \$100 and \$150 from the home of Mr. and Mrs. John Saario, Montclair, Calif., and spent them for watches, four transistor radios, a model airplane and a few trinkets.

Approximately \$85 in a coin collection and cash was taken in a break-in at the home of Jack Goudy, Fremont, Nebr.

More than \$75 in old and modern money was taken from the home of Mr. and Mrs. Tom Simmons, Graham, N. C., while they were in the yard.

Burglars took approximately \$75 including silver dollars and uncirculated cents in a coin collection from the Rocky Ford, Colo., service station of Lloyd Nelson.

Thomas E. Hill, of Tommie's Coin and Supply Shop, 1626 E. Douglas, East Wichita, Kansas, reported to police the recent theft of two rare gold coins by a man posing as a customer.

Burglars broke into the Midway Piper and Supply Corp. of Tucson, Ariz., and took a coin collection plus \$35 in cash.

Lloyd H. Jones, Springfield, Mo., reported currency and old coins were stolen from his home recently.

Coins were included in the robbery loss reported by the Trout garage, Hillrose, Colo., to Morgan county officials.

Preliminary hearing for the Indianapolis juvenile believed to be responsible for a series of coin thefts has been continued indefinitely, according to police officials.

Three Lemoyne, Pa., business firms were looted of cash recently including \$50 in rare coins from the West Shore Lumber Co.

Three young men were arrested recently by Hillsborough, N. J., police who said the trio stole \$750 worth of coins, some of them rare silver pieces, from the home of William Smith, Hollisborough. Smith discovered the theft April 8.

Charged with breaking and entering plus larceny were Gerald William, 26, Somerville; Dominic Angelone, 18, Bridgewater, and Thomas De Fazio, 18, Raritan.

Police were alerted when routine investigation disclosed De Fazio bought a used car and paid for it with silver dollars. He was picked up and questioned, and police said he allegedly named his accomplices in the Smith theft.

A MEDAL OF UNUSUAL HISTORIC INTEREST

It commemorates Minnesota's Centennial, plus Alexandria (Minnesota) Centennial, the home of the famous Kensington Rune Stone.

The 230 pound stone was found in the Alexandria area in 1898, inscribed in Runic characters which told the amazing story that Norsemen had visited the site 130 years before Columbus discovered America!

Only 2500 medals struck in bronze, none in silver. Available now in 1-5/16" two-toned bronze.

\$1.00 each; four for \$3.00

Because of the unusual historic interest involved, a special limited striking (maximum 250 pieces) will be made in solid sterling silver. Sterling orders must be post marked within ten days of issue date of this publication.

Club Discusses A.N.A. Ballot At Danville

Discussion of the American Numismatic Association ballot and the Coin World club subscription offer comprised the business meeting of the Danville Coin Club at its July 18 meeting in the Y.W.C.A. building in Danville, Illinois.

"Because of the warm weather, the meeting was limited to the club's action on the A.N.A. ballot" according to President George

Stevenson, who also added that a 40 minute gab session followed and a small coin auction was also held.

However, the 17 members and three guests heard President Stevenson explain the Coin World club subscription plan by pointing out the savings available through this special offer. He added that there were many advantages of having current coin news, up to

date coin trends values and the great variety of coin advertisements.

Indications that the August meeting would be of the same style were given by the president because of the expected hot weather.

More than usual interest in the A.N.A. ballot was indicated this year by the club members because of the competition for several offices.

Guests present included Keith L. Romine, A. J. Brockway, who became a new club member; and Harold L. Smith.

Club Publicized

Connie Ann Birr, daughter of Mr. and Mrs. William C. Birr, Winter Park, Fla., was pictured in color recently in the Orlando, Fla., Star as she posed with a display of the Central Florida Coin Club, Orlando, a National Coin Week award winner.

PUT YOUR MONEY IN MONEY (MINE) HI FOLKS...

I've really enjoyed writing the last couple of ads. Today I walked into a local coin store. The owner pulled out my ad for July 21 and said "What do you mean, rare medium date 61 proofs? I've had 4 phone calls today." Shows how far a gag can go.

Over the last 2 months or so, I've managed to fill about 95% of all orders. The others have been for mostly one shot items, as late as 6 and 7 weeks after the ad. This makes me feel good.

Think I ought to get up tomorrow morning and watch the astronaut shot? By the time you read this, he'll be ancient history. Anyway, all I have to do is keep on riding on my 1960-D small date cents, and in a few months I'll be in orbit myself. Do you have any, I do!

BU COMMEMORATIVE 50c SET COMPLETE

(Includes Columbian, Stone Mtn., and all the others)

All kidding aside, this is a beautiful complete set of BU U.S. Commemorative half dollars. I sat down and did a little figuring, using both the old book and the new. This set catalogues about \$3900.00 in the new book, and about \$3320.00 in the 14th Red Book. Now, my price on the complete set is \$3095.00. This means you get the Hawaii for \$160.00 (old book), etc. Need I say more.

One thing — don't send me a post card and say ship for your inspection. I suggest you either mail me a cashier's check (absolute satisfaction, or an immediate refund) or CALL me and arrange to inspect it at your bank. 31 bills is not chicken feed..... **\$3095.00**

1863 PROOF SET

(1c, 5c, 10c, 25c, 50c) A nice batch of scarce coins. Unfortunately, they are for the most part not gems, though quite brilliant and attractive. The old gentleman who owned them for many years allowed them to touch together lightly. This rare lot catalogues \$307.50, but my usual realistic bargain basement price is

\$238.50

HAWAII CENT

Bright red uncirc. This coin was struck on a large cent planchet, I believe, and exhibits the same beautiful red-brown color. Unlike most specimens, there are no carbon spots or corrosion. A single bag-scratch spoils an otherwise choice piece.

\$109.50

1961 STANDING LIBERTY QUARTER

This coin is G+/F, with a relatively decent date; sharp and high, with only the topmost part of the 6 gone. **\$134.50**

BU COIN SETS

These are still the specialty of the house. My margin of profit is surely smaller than on anything else, but there is more satisfaction. I notice that everyone else has for the most part raised their prices well above mine. This is the big advantage of being in the roll business also, it enables me to buy most of my rolls at wholesale.

Those of you who have limited funds to invest in coins, should consider the advantage of buying a BU set. You get a readily resalable item at roll prices. Any dealer will buy such a set, but only the few roll dealers will buy your rolls.

FOR A SQUARE DEAL ON ROUND MONEY</

Germany's Top Coins Found In East Berlin

(EDITOR'S NOTE — A report on European Numismatic points of interest is being prepared by Dr. Robert Obojski, Coin World's traveling editor, from first hand experiences. He has visited several countries already but in view of the timeliness of the news, we are presenting the East Berlin story in this issue.)

By Robert Obojski

Today I crossed over from West to East Berlin through the Brandenburg Gates—without the slightest difficulty, incidentally—for the purpose of viewing the German national numismatic collection in the "Munzkabinett" (coin cabinet) in the Berlin Museum.

The Berlin Museum contains one of the world's finest numismatic collections. Fortunately, none of the collection was lost during the war, although the museum buildings are quite badly scarred with shell fire.

(We should indicate at this point that the Berlin Museum is a complex of several buildings containing not only the national collection of coins, but also the national collections of sculpture, painting, and all other art forms).

Approximately 5,000 coins are on open display in eight rooms in a special wing, while the research collection contains over 100,000 pieces.

The exhibition contains primarily the coins of Greece, Rome, Byzantium, and Germany. The displays are arranged in wall type cases, and in most instances two coins of each variety are mounted so that the viewer may see both the obverse and reverse. Each coin is fully identified with a printed card.

Large size photos of prize ancient Greek and Roman coins are posted on the walls so that the serious numismatist may study them in some detail.

The two museum guards are extremely cordial and will do their best to point out the cabinet's most striking items, even if you don't know a syllable of German.

Karl W. Becker (1772-1830), probably the world's most expert counterfeiter of ancient and classical coins, occupies a prominent spot here.

A large number of his dies and "coins" are included, and nearby

A Joachimsthaler struck in 1525 is one of the prize coins in the Munzkabinett at the Berlin Museum.

the viewer may compare Becker's work with that of the real Greek and Roman money makers. A close examination will reveal, of course, that Becker did not really capture the "spirit" of the Greeks and Romans, but, nevertheless, he came closer than anyone else did.

There is also a special display showing the development of paper money over a period of nearly six centuries. First item in this exhibit is a large Chinese note of the year 1369. Measuring about eight by 14 inches, it is a singular work of Oriental art, and a true numismatic rarity.

Notes of many countries are contained, including a 1758 10-pound note of New York, and early examples of English, French and German currency.

Many unusual items of numismatic interest are contained. Among these are a huge brass wine keg of the 18th century decorated with several hundred authentic German talers.

Also among the unusual at the Munzkabinett is a beautiful stained glass window showing a series of portraits of 16th century German money makers.

For those interested in the techniques of money making, several German coin presses are on display,

including one of the 18th century.

The Munzkabinett's library is a fine one, and several glass cases have been set aside for an exhibit of a number of choice and classical numismatic volumes.

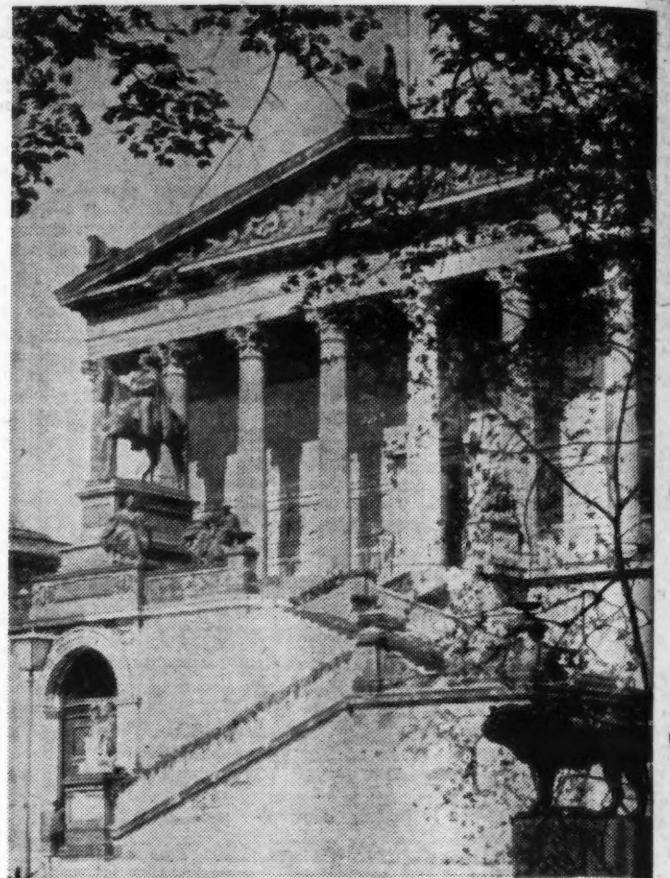

Any numismatist who happens to get over to West Berlin should cross over to the eastern sector and view the collection at the Berlin Museum. It's one of the best in Europe and the world.

Georgia Club Holds Meeting

Wednesday, August 2, was the scheduled meeting date for the recently formed Northwest Georgia Coin Club, set for the Boys Club building in West Rome, starting at 7:30 p.m., according to a report from club officials.

At the organization session, M. F. Ward was chosen president. Other first-time officers include John Grigsby, vice president; Don Milton, secretary; C. C. Poplin, treasurer; Clarence Cochran, membership chairman, and H. M. McKenzie, publicity chairman.

With the purpose of promoting coin collecting, the club is open to interested residents of six northwest Georgia counties from Polk to Walker and including Gordon and Bartow.

The Berlin Museum, East Berlin, Germany, houses the German national numismatic collection at the Munzkabinett. Berlin Museum's collection is rated as one of the finest in all Europe and the world.

Bartow, Fla., Lions Club members recently inspected a \$15,000 coin collection as William F.

Sneed Jr., Lakeland, Fla., dealer, spoke to them.

Sneed began collecting coins in 1918.

Yemen Has Money Trouble

Collectors of foreign paper money may be curious as to why they can never obtain any from the kingdom of Yemen, and collectors of foreign coins may be interested in a current report of conditions in that country.

The answer to the paper money problem is that Yemen has never issued any, and now, due to expanded economy, there is a currency problem!

As for coinage, Yemen's small coins are, or were, struck in a mint at San'a, the country's largest and capital city. Those coins are called, respectively from small to larger, Halala, Bogach, and Imadi and, recently, a Ryal the same as Imadi.

For equivalents, two Halala equal one Bogach, 40 Bogaches equal one Imadi, which has an official value in United States money of 84 cents, according to Yeoman's Catalogue. Its coinage has until recently been of bronze and silver, with some aluminum used since 1955. Its lowest value coin has been the ½ Halala.

Yemen's trading coin is the Maria Theresa Thaler with the 1780 date. It does not mint these but obtains them from the countries that still coin it, and its people will not recognize any other date as genuine.

Source for much of this article on Yemen is a recent report from Dr. W. Nelson Peach, chairman of the department of economics at the University of Oklahoma, who visited Yemen on behalf of the International Cooperation Administration, to do research on Yemen's currency problem.

Peach was accompanied on his visit by Verne Kennedy, Jr., executive director of the Research Institute. The rest of this article is Peach's report.

Yemen, a kingdom on the southwestern tip of the Arabian peninsula, has a problem in that there is no paper currency, Peach explained. Maria Theresa silver Thalers contain 68½ cents worth of silver, but there are not enough to finance the country's expanding economic activity.

Yemen has no mint, he said, so thalers are mainly minted in Italy, Belgium and Austria. And the new ones are dated the same as the original thalers because a modern date would cause the coin to be suspect.

Peach was the first to arrive in Yemen, as the travelers separated briefly in Ethiopia. While in Ethiopia, the economics professor sounded out officials of the Central Bank as to their making thalers available to interests in Yemen. The Bank possesses an unknown quantity of the coins.

"Yemen was like something out of 'The Arabian Nights,'" Peach said. "The Imam reigns in absolute power and has his own harem. The national religion is Mohammedanism. There isn't any government in Yemen in the usually accepted sense and the capital moves with the Imam. Universities and colleges don't exist. There's a national curfew every night at 9:30 that's rigidly enforced."

Russian and Red Chinese technicians are actively engaged in construction in Yemen. In Hodeida, the Russians are completing a huge modern port with petroleum storage facilities. The Red Chinese are working furiously to

build a road from Hodeida to San'a.

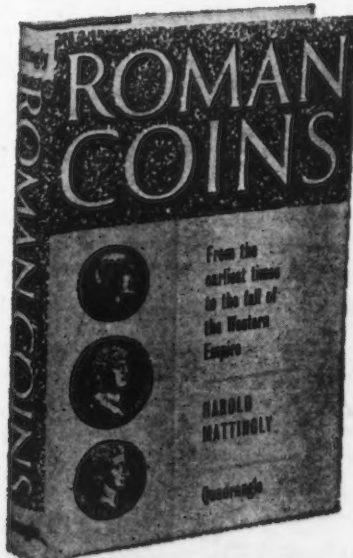

"Mocha used to be a town of perhaps 20,000 people," Kennedy said, "but now has only 1,000 inhabitants. There are ruins of mosques all about and forts with old, muzzle-loading cannons rusting atop battlements."

Thanks to an ICA road project and the introduction of United States money into the area, the town is being revived."

"Most of the Yemen men, particularly those in the upper class, wear daggers in their belt," said Kennedy. "The men wear crossed bandoleers and carry rifles. The size, location and ornamentation of the dagger is a status symbol."

Peach's oral confidential report on Yemen has been made to the ICA in Washington, with a written report to follow. Both list the results of his extensive research in the field, which may lead to a solution to Yemen's currency difficulties.

Altus Club Holds Exhibit;
Group Formed Eight Months

A special exhibit on July 30 after only eight months of organization is the achievement of the Altus, Okla., Stamp and Coin Club.

The club already has 46 members and holds meetings every other week on Sunday in the Altus Chamber of Commerce office.

A business session, program and trading session are held; John Miklas is president; John G. Porter, vice president and Rhoda

Belle George, secretary-treasurer.

The club is affiliated with both the American Numismatic Association and the American Philatelic Association. Its motto is "Organized to encourage and dispense numismatic and philatelic knowledge."

Later the group hopes to join with the Vernon, Fort Sill and Wichita Falls Coin Clubs for a large coin show.

Visitors are welcomed to the Sunday sessions, President Miklas says. Membership fees are \$1 for adults and 50 cents for juniors.

Coitsville To
Be Show Site

Coins will be among the featured articles at a big guns, antiques and hobbies Show and Sale, to be held Sunday, August 6, at the Coitsville, Ohio, Town Hall, on Route 422 near Youngstown, sponsored by the Mahoning Valley Gun Collectors Association.

Some 52 dealers are scheduled to be present, with such things as books, buttons, glass, swords and knives, guns, stamps, coins, Indian relics, pigeons, and a "flea market."

Open to the public at no admission charge, the Show is to begin at 8 a.m., and run for at least 12 hours.

Coin Test

1—During what years did "VDB" not appear on the Lincoln cent?

2—What was the first one-cent series to have the motto "In God We Trust" on it?

3—How many types of Lincoln cents are listed by metals used and what are they?

4—According to the Red Book, what is known about "off metal" Lincoln cents?

5—What was the first year of the "Lincoln Memorial" cent? (Answers elsewhere in this issue)

The Romance of MONEY

By Ted R. Hammer

There are two main types of coin collectors—the hoarder and the numismatist. Sometimes, a third category is included—the investor, a newcomer who knows nothing about coins but is interested in a profit. We consider the latter along with the hoarder. To both groups—the hoarder and the numismatist—the collecting fraternity owes a debt.

Ted R. Hammer

Had it not been for the hoarder who put away a few coins now

Nitro Dealer Adds Numismatic Division

A complete line of key coins and supplies for coin collections have been added by Aldo W. Hanes to his Hanes Appliance and Gift Center, 21st Street, Nitro, West Virginia.

"I have been well pleased by the great interest in numismatics in this area," Hanes said, "and I intend to devote much time to this department. I will sell and buy both over the counter and by mail."

and then, many of the items available today at reasonable prices would be rare and costly. That there were hoarders in ancient times is indicated by small and large hoards dug up from time to time. Numerous hoards contain specimens indicating the persons assembling them knew something of coins and numismatic history.

To the student we are indebted for information left behind about mints, designers and the many other facets of collecting.

The numismatist is a student of money and medals and not necessarily a collector. He surely does not need a big collection and often is not in the financial bracket permitting indiscriminate collecting.

The hoarder can save anything he likes and often can afford to hoard boxes of proof sets, numerous rolls and so on. The hoarder sometimes becomes a numismatist. In fact, most of the coin students today started by accumulating odd coins, a set of Lincoln cents or some foreign money.

An Iowan who today is an outstanding authority in several fields, including obsolete banknotes, Civil War tokens, American colonial coins and ancient Roman coins, began with a "penny board" during the Korean war. At first, he decided to try and accumulate one cent of each year since 1909, first year of the Lincoln. Then he decided to get together a complete set of Lincoln cents, including those of all three mints.

Somewhere along the way he picked up a small collection of uncurrent banknotes which also are known as broken bank bills as well as obsolete banknotes. At a convention in Des Moines, his wife became interested in coins of ancient Rome. It's a question today of which one knows the most about this interesting field—said by many dealers and collectors to be the most interesting specialty in all coin collecting.

So don't look down on the guy who is a beginner perhaps and collects anything that takes his eye or who hopes to sell the coins at profit in a few years.

Oak Park Members Take Medals 'Trip'

A film "Let's Take a Trip" was shown to members of the Oak Park, Illinois, Coin Club at its July 14th meeting in the Oak Park Arms Hotel with 78 members and 25 guests present.

Furnished by the Medallic Art Company of New York City, the film gave a pictorial story of how medals are made and showed many of the details of the operations. The members and guests present expressed a great amount of interest in the medals story, according to S. A. Petten, secretary, who reported on the meeting.

Another feature of the evening included six fine displays as follows:

Recent gold issues: Israel, 2 pounds; Ghana, 2 pounds; Iceland, 500 Krona; Celestia, 1 gold celestion; gold medals, 2 Theodor Herzl; 2 Anne Frank 2 David Ben

(2) E. H. Moller: 16 pieces, commemorative medals and 50c tokens.

(3) Don Doswell: English half penny tokens showing buildings; dates, 1787 to 1797.

(4) Jim Grebinger; various sizes and styles of plastic cases—do it yourself project.

(5) D. G. Anderson: three uncut sheets of bank notes, two from Bank of Canal and 1 from South Carolina; four pieces from Maryland; six notes from Confederate States of America; Gold type set Saint Gaudens.

At the next meeting, to be held August 11, an auction of approximately 60 lots will be held. Visitors in the area are welcome to attend the session.

Greenville Club To Meet August 10

The Greenville, Pa., Coin Club is scheduled to hold its next meeting on Thursday, August 10, in the ballroom of the Italian Home, South Race Street, in Greenville, according to club president Howard Hillman.

At the last meeting, an auction was featured, highlighted by an 1870-CC silver dollar.

A LITTLE INTERESTING HISTORY

Valerian became emperor, by force, in 254 A.D. He associated his son Gallienus with himself as joint ruler. In 260 A.D. Valerian was captured by the Persians after a defeat in battle. He died in captivity after several years. The Persians had Valerian stuffed and mounted as a show-piece. Gallienus ruled until 268 A.D. After a reign featuring revolts, famines, plagues, and invasions, he was murdered by his own soldiers.

Pontiac Issues Tokens On 100th Anniversary

The Greater City of Pontiac, Mich., has issued souvenir "money" to commemorate its 100th anniversary as a city.

A total of 25,000 tokens were struck in golden bronze, one and one-fourth inches in diameter.

On the obverse a replica of Chief Pontiac is superimposed over an outline of the state of Michigan with a star showing the location of the city. Surrounding the replica is an outline of gears representing Pontiac as a major city, home of Pontiac cars and General Motors trucks and

coaches.

The celebration committee also issued three varieties of wooden nickels.

Pontiac merchants cooperated with the Centennial Committee and the Junior Chamber of Commerce in distribution of the tokens.

They may be obtained by collectors by writing to Joseph O. Gagne, P. O. Box 4215, Pontiac, Mich. Bronze tokens are \$1.50 each, and the wooden nickels, three coins, one of each, cost 75 cents.

Coin Cache Captures Cops

Mrs. Margaret Whitlock, Collins Park, Delaware, whose car was towed away from a city street recently, plunked down a paper bag containing 1,300 cents on Police Sgt. Eugene Maloney's desk to pay her \$13 towing bill.

The coin collectors in the police department beamed! Lt. Charles Allen, Sgt. David Henderson and Patrolman George Foxwell organizer of the Wilmington, Delaware, Coin Club, quickly rallied to the counting cause.

Foxwell said 77 of the cents would be worth \$7 in any collector's book.

Mrs. Whitlock said she paid the fine in cents because that's all the money she had in the house.

Police said the coins would be turned over the Municipal Court.

Seymour Group To Hold Outing

Although the Seymour, Ind., Numismatic Society has suspended regular meetings until September, the group has scheduled its annual picnic for Sunday, August 6, to be held in Shields Park, starting at 4 p.m. Rain date is August 13, according to chairman James Tungeit.

Porcelain Fill-In

Porcelain coins were issued in Germany for several years after the close of World War I because there was a critical shortage of metal.

Fair To Very Fine Patience Has Its Reward; Long-Standing Hole Filled

By James G. Johnson

This week's column is by way of relaxing from the serious topics I have taken up of late, and I am going to talk a little about my own collection, or rather, Jimmy, Jr.'s, and mine. Not that I have much time to work on it these days, but I never let myself get completely away from it. Attending coin club meetings helps to keep me active as a collector, since either club auctions or trading tables or dealers' bourse tables are readily available. And at the last meeting of the Tri-County Coin Club of St. Marys, Ohio, I "picked up" a coin that filled a hole I thought would be empty for years.

I had taken up some material to trade, and was just getting ready to sit down at the "trading table", when my fellow worker at Coin World, Tom Ehler, rushed up to me and said "There's a 1799 large cent for sale over at that dealer's table".

So over I went to look at it. My

large cent collection has been almost complete for some years now, as far as dates are concerned, with only the 1799 and 1804 holes empty. But I had not anticipated filling them in the foreseeable future, prices being what they are.

However, this dealer had one, with a legible date, which is all I care about when trying to fill a hole. The improvement can come later. He told me the price, which was reasonable, although considerably more than I could or would pay in cash. The most I have ever paid for a coin is \$25, and only about once have I gone that high.

At any rate, I made him an offer in trade which was somewhat more than his cash price, and he took me up. So I dug up some Buffalo nickels and some silver dollars and we made a deal. I gave him a bit more than I needed to, but I was glad enough to get the coin. After all, there are plenty of large cent collections which do not have a 1799, probably more than do have, regardless of condition. Now, all I need is the 1804!

Some other recent additions to the collection include a dozen or

so old dimes and half dimes which I spotted in a bargain ad in Coin World. They also filled holes, at an average of about a dollar apiece.

Incidentally, speaking of answering ads in Coin World, I would like to digress here to answer a complaint. Somebody, whose letter is near the top of my personal pile but which I can't locate immediately, wrote in to say that he thought there must be a "leak" somewhere at Coin World, because he got so many "sorry, sold out" replies when he answered ads.

I can say here and now that nobody on Coin World's editorial or advertising staff takes any advantage of knowing in advance what is in an advertisement. We have a policy, and we stick to it, that we CANNOT have an order reach a dealer before Monday of the week the paper is dated, in fairness to our subscribers. In addition, nobody on the staff of Coin World can have any commercial interest in coins, which is why I stopped being a dealer when I joined the staff last November 1.

The "sold out" can be caused by several factors, including fast orders by people who get their papers first. Sometimes they are caused by the dealer selling over the counter some of the coins he put in his ad, after he sent in the advertising copy. Many ads state "subject to prior sale". I have had those "sold out's", too, and don't like it.

But I expect a certain amount of it. As a former dealer, myself, I know what can happen. However, as one dealer wrote us, no dealer is going to spend money to put an ad in the paper and then not sell the coins. But I don't expect him to hold up an immediate over the counter sale on the chance of a possible mail order sale. The vast majority of dealers have the coins when they send in their ads, regardless of what they have left when the ad appears.

Those dealers who sell solely by mail are going to sell to the first order they open, and the bottom one in the same mail is going to get the "sorry, sold out". And of some coins, no dealer is going to have very many in stock at any one time. Some of them take and fill orders by telephone, which is faster than mail. I don't like that as a mail buyer, but they are in business to sell and they are going to do it anyway they can, and there is nothing I can do about it.

I have to take it, but I don't have to like it.

Let's get off a disagreeable subject, and back to our collection. I was speaking of half-dimes. There is one in my set which intrigues me greatly. There seems to be some mystery about it. I am referring to the 1838-O, which was a variety without stars.

My half-dime series is in a Whitman folder, and underneath that hole is the word "unknown" where the mintage figures usually are.

The "Blue Book" also leaves the figures blank, and the "Red Book" omits the coin entirely from the mintage tabulation in the back, although it includes the 1837-P of the same type, and it is listed in the valuation section.

In Walter Breen's pamphlet on that series, ("Coin Collector's Journal", 1958) he states that 115,000 were minted, part in 1838 and part in 1839 before the 1839 dies arrived in New Orleans.

Coins; Joe Goodyear, ancient and medieval coins; Bob Berman, foreign coins, and Thelma Case for her display of coins and books on knowledge in numismatics.

Dick Goodson, president of the Numismatic Association of Southern California, served as chair-

man of the judges, with Lou Upton and Jim Miladin helping him. The judging was done by the official N.A.S.C. point system. Ralph "Curly" Mitchell presented the trophies to the winners.

In commemoration of the fourth anniversary there were three gold pieces awarded. The winners were Chuck Brainard, who won a \$10 gold piece; Joy Parrish won a \$5 gold piece, and A. R. Palmer won the \$2½ gold piece.

At intermission Mrs. Leona Kohl served ice cream, cup cakes, and punch and coffee.

The Southern Hub Club meets the second Sunday of each month at 325 No. Hillcrest Blvd. Mrs. Ida

Mae Griffin of Long Beach will be the featured speaker on Sunday, August 13, and will talk on her newly formed foreign collection. All coin collectors in the Los Angeles area are invited to attend.

Dearborn Club Plans Show

Final arrangements for the fall coin show, sponsored by the Dearborn Coin Club, were to be made at the next meeting of the club scheduled for August 1 at the Dearborn Youth Center building, Dearborn, Mich.

Committee sessions and plans were to be reported at this time with final action expected then according to Richard Tomczak, club secretary.

For the last meeting, John Billocke told the 20 members and five guests present how he had found a 1909-S Lincoln cent out of circulation.

It was also announced by President Donald Squire that the pro-

gram for the August 15th meeting would be Gordon Duncan, patrolman on the Grosse Pointe police department, an authority on counterfeit bills. He will present some photos and samples with his address.

Guests at the last meeting included Harold Mahar, William Mielke, Mr. and Mrs. Art Carter and William Davidson.

New Price List Issued

The Twin City Stamp and Coin Shop of St. Paul, Minn., has issued its 1961 price list in pocket-sized, printed form, with attractive blue and white cover.

Covered are all small cents, two-cent and three-cent series, all nickels, and dimes, quarters and halves from 1892. Type coins in all series including gold are also listed, with albums, folders and other supplies. Proof sets and Canadian small cents and nickels are likewise included.

The prices are expected to be good all year, subject to a minimum number of changes, according to proprietor Dick Rudolf. Cost of the booklet is 25 cents, refundable with a credit slip on purchases, and it may be obtained by writing the shop or Rudolf at 48 West 4th Street, St. Paul 2, Minn.

Club Holds Open House

The Newton Falls, Ohio, Coin Club held an open house in July, at St. Joseph Church hall. On the program were exhibits of members' collections, and a dealers' bourse for collecting supplies.

Schulman Reports

African Monies Should Be Preserved Columnist Says

By Hans M. F. Schulman

With more and more African nations becoming independent, our numismatic interest in this part of the world grows. We have little or no numismatic information on these countries except for their new currencies or for the colonial monies they used before independence. Most of the collectors probably do not know that in these African countries strange media of exchange were the currencies in use until fairly recent dates.

Hans Schulman

When we go to the different money museums, to conventions or coin clubs, we become rarely acquainted with the phase of numismatics, because few collectors have such pieces in their collection, often because they never came across them or because these items are bulky or most of all because there is little literature about it.

The Chase Manhattan Money Museum and the Money Museum of the National Bank of Detroit are exceptions to the above. They have large and very representative collections of the odd and curious monies of the world, complete with detailed descriptions and history. So has the Museum of Science in Buffalo (ask to see the Knox collection). Few books are available describing these fascinating series.

Howard D. Gibbs in 1946 and reprinted in 1956 published his Register of Odd and Curious Money. A sort of pamphlet type catalogue giving a short listing of what in

those years was once available, quite comprehensive listing with out-of-date valuations, but about the only thing at hand. A copy for \$1 can often still be obtained (ask me, Hans Schulman).

Long Ago the Museum of Science published a catalogue on the Knox Collection, written by the late Stuart Mosher—but in the last 10 years I saw two copies (selling at about \$10). More available than this is the standard work of odd and curious money; what I call the "odd and curious money Bible"—Quiggin's book "Primitive

Money" published in London some 15 years ago by Methuen at about \$7.50 and unfortunately out of print since about one and one-half years.

Only now have the copies at hand at Coin and Book dealers been exhausted and we can state that it will be difficult to get this good book (\$15 would be the price of a copy if found) Quiggin is at present used as the standard guide and many collectors feel that if not in Quiggin; it really may not be money; but only of ethnological value.

Green Conducts Session

Robert Green, the vice president, presided at the July 17 meeting at the Carmi, Ill., Coin and Stamp Club, held in the basement of the Public Library.

The president, Rev. Carl Gammel, is a patient in the hospital.

A small club auction was held; a check book on coins, two rolls of cents and a diamond jubilee

medal were offered with Robert Wade as the auctioneer.

Buyers at the auction included Roy Jordan, Ed Rister, Donald Hallyworth and Mrs. Harriet B. Vaught.

A special prize of an uncirculated coin will be presented at the August 7 meeting.

Fair-Fine . . .

(Continued from Page 34)

One of the things I would like to know is, how did Breen find out the mintage, and why didn't he tell Yeoman? Or, if Breen could find out, why couldn't Yeoman? Why is the coin omitted from the back section of the Red Book?

Another point: the 18th edition of "The Standard Catalogue", 1957, gives a value for the coin in italics, which means "questionable" either because of rarity or because of speculation which I doubt applies in this case. But in the mintage figures, again, none is given, total for the year of the New Orleans Mint being the same as for the dime.

Walter Breen was on the staff of that catalogue. If he knew the mintage figures in 1958, why didn't he know them in 1957? All the books give mintage figures for the same type of dime, why is the half-dime different? And, finally, could those two coins, the 1838-O half-dime and dime be called either "patterns" or "transitional coins?" The same design was used in 1837 at Philadelphia, but Judd does not mention them.

The Standard Catalogue gives Christian Gobrecht as the designer. He designed some pattern silver dollars in 1836 which also had no stars on the obverse, as pictured in the Red Book. To me there must be a connection, but I have not seen it mentioned anywhere, which of course does not mean it has not been.

To me, these coins are an intriguing mystery. We have had the 1838-O dime and half-dime in our collection for some years, and I don't even recall where we got them. I have a vague impression that at some coin club or other, possibly Akron, Ohio, or Tri-County in Greenfield, Mass., somebody came up to me and offered them cheap and I bought them.

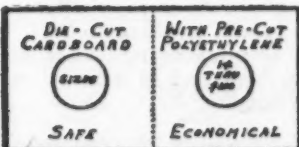

For you readers still in the Lincoln cent and Mercury dime stage of collecting, don't think I am not interested in them, too. I am, but I found them all in circulation some years ago and my aim now for what might be called the "current" series is to improve them. As for the Barber coins, and Indian cents, we lack the 1909-S Indian, two Barber dimes besides the 1894-S (1), three quarters, and one half dollar, having found all the Barber dates in circulation that are in the sets, although some have been improved since.

Livingston New Empire Head

Paul C. Livingston was elected president of the Empire State Numismatic Association of New York, to succeed Dr. Feori F. Pipito as chief executive.

Other officers elected at a recent meeting include first vice president, Fred G. Hunter, Binghamton; second vice president, Charles Schermerhorn, Albany; secretary, Charles F. French, Troy; assistant secretary, Arline French, Troy; Ed A. Park, treasurer, of Syracuse.

The club ruled that there will be five categories in the future for displays, U. S. coins, paper, ancient, foreign, medals and tokens.

John J. Pittman, of the Rochester Numismatic Society, announced the organization will observe its 50th anniversary on January 6, 1962.

It was decided that at future conventions there would be no charge for children if they were

accompanied by adults. The board also approved the loan of cases to member organizations if there would be a \$100 deposit, to be returned minus any damage charges. Member groups are to pay the transportation costs.

Fred G. Hunter is to be the future editor of the Stater, it was announced; Willis McKinney of Albany received recognition for his good work.

The club is making plans for the fall meeting, to be held September 29, 30 and October 1 at the Sheraton-Syracuse Inn, Exit 35, New York State thruway. The Binghamton dates are May 18-20.

Club Adopts Constitution

Constitution and by-laws for the recently organized Stevens Point, Wisc., Coin Club were slated to be the main item of discussion at the group's August meeting, which was scheduled to be held on Wednesday, August 2, at the American Legion Clubrooms, at 7:30 p. m.

Also on the program was to be a "swap night".

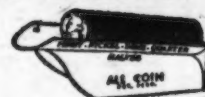

At the July session, some 40 collectors were in attendance, from Stevens Point, Wisconsin Rapids, Junction City, Port Edwards, Marshfield and Wausau. Gerald Johnson of Wisconsin Rapids discussed coin grading and other aspects of numismatics.

A Weekly Report To Our Readers

Statistics And Interesting
Information from your COIN
WORLD Circulation Dept.

CECIL WATKINS

Coin World Needs Your Assistance

Would you please stop reading for just one minute and do us a small favor? We would like to have you check your Coin World subscription status and see if it corresponds with your records.

First, turn to the first page of your paper and look at the whole number appearing just below the word "Coin" in red. That is the current number of the paper you now have in your hand and that number moves up one each issue.

In other words that number on the paper you now have is 68 and it means that it is the sixty-eighth issue of Coin World to be printed. Next week that number will be 69, and etc.

Next, check your address block on the lower right hand margin of the same page and the number appearing opposite your name will be the whole number of Coin World when your present subscription runs out.

By subtracting the current whole number from your expiration whole number you can quickly see how many more copies you will receive before your present subscription expires.

If you will watch the circulation data figures in the lower left hand corner of the first page each week you will be reminded just when you should renew to insure yourself of uninterrupted delivery.

This is Coin World's way of sending you a report each week of the status of your present subscription.

Hope we didn't take too much of your valuable time in explaining just how our little system works.

Grading Of Coins Club Topic

Grading of coins was the discussion at the meeting of the Treasure Island Coin Club, Galveston, Texas, recently at the Sea View Cafe with 68 members and four guests present for the special occasion.

Special slides based upon the book "A Guide To Grading United States Coins" by Brown and Dunn, were presented and explained by E. E. White. This was the first such type of program to be presented to this club and proved interesting according to the report filed by the secretary, Mrs. John S. Houston Jr.

A slide showing the grading of Lincoln cents and Buffalo nickels was also presented by Dr. Anderson and explained by him.

A part of the program for the next meeting, to be held August 1st, were to be slides on the grading of Mercury dimes, shown by Dr. Anderson. Visitors were welcome.

As a part of the meeting, a special display of foreign coins was made by Hugh Threlkeld with his novel frames.

This was the fourth regular meeting of this coin club. Guests welcomed included: Mrs. C. G. Haglund, W. E. Stover, J. C. Brandy and C. Pappas, all of Galveston.

Also reported were the members named to the board of directors at a recent session. These included:

Mr. and Mrs. Maynard Bennett, C. W. Blair, A. H. Ashorn, and M. L. Shupe, all of Galveston, and E. E. White of La Marque.

New Jersey Society Has New Members

Four new members were inducted into the New Jersey Numismatic Society at its July session, held at the Military Park Hotel, Park Place, in Newark.

They are Mrs. Elsie Leonard, Mrs. Lillian B. Selfridge, Joseph Sternberg and Raymond S. Gallo.

Favorite subjects was the theme of the meeting and some of the members brought their favorite and choice items for display.

There was a spirited and interesting auction of medium and higher priced duplicates belonging to the membership.

During the informal discussion, members were urged to beware of imitations and coins in copy made either surreptitiously or long ago and now being passed as the real thing.

George Wait officiated at the meeting. The club cast its ballot for American Numismatic Association officers by recommendation and acclamation.

Numismatic Depth Study

Modern Overdates Errors; Earlier Ones Saved Money

By Q. David Bowers

One of the most interesting side-
lights of American numismatics
is the study of
overdates. These were pro-
duced, in most
instances, by
engraving
another figure
over the last
digit of the
date. Thus the
1807/6 large
cent was pro-
duced by en-
graving a 7 over the last figure
on an 1806 obverse die. Most of
the early overdates produced by
the United States Mint were a re-
sult of conomic considerations.
Rather than discard an expensive
die because the date was of the
previous year, the die was
altered...producing an overdate.
During recent decades the Mint
has not punched the date figures
on a blank die. Instead, an entire
hub die complete with date is pre-
pared. A recent overdate such as
the 1942/1 dime is the result of
the impression of two hubs, each
of a different year, on a die
blank. The 20th century overdates
are probably errors rather than
economy measures.

Overdates have only been im-
portant the past twenty or thirty
years. Before that time, over-
dates received very little atten-
tion. Early auction catalogs de-
voted little space or attention to
them. This is not so today. Over-
dates are regarded as important
parts of the sets to which they
belong.

Most attention is centered on
20th century overdates of which
there are four definitely confirmed
varieties: 1918/7-D nickel, 1942/1
dime, 1918/7-S quarter and
1909/8 double eagle.

The 1918/7-D nickel is scarce in
any condition and rare in Fine or
better preservation. In this con-
dition it is the rarest twentieth
century overdate. Legitimate
sales records in the \$4000 range
have been recorded for exception-
ally choice Uncirculated ex-
amples.

There were about 44,000 1942/1
dimes struck, according to the
most reliable estimates. Most of
these were released into circula-
tion in the New York City area.
As this overdate was not publi-
cized until several years after it
was struck, mint state examples
are very rare. We have heard re-
peated rumors of mint rolls of
this coin, but invariably the trac-

ing of these rumors led to no-
where.

The 1918/7-S quarter is scarce,
but obtainable in all conditions.
Two or three Brilliant Uncircu-
lated specimens come on the mar-
ket each year, often each billed
as "finest known", "semi-unique"
or something in the same vein.
The 15th edition Guidebook valua-
tion of \$900.00 Uncirculated seems
reasonable.

Depth Study . . .

(Continued from Page 42)

The 1909/8 double eagle is said by many to be commoner than its 1909 perfect date counterpart. Most of the specimens known are uncirculated or close to it due to storage in bank vaults.

It would be appropriate to mention here the many rumored overdates of coins dated since 1900. We have tried to track down sharp EF or better examples of such reported items as: 1929/8 5c, 1918/7-D and S 10c and 1918/7-D 25c. So far none have been located.

Strangely enough, overdates have never been emphasized in the field of colonial coins. There are many overdates in the state coinage series, particularly the issues of Connecticut, but these have received notice only by specialized references.

In the regular United States series the overdates have been almost completely covered by the Guidebook of United States Coins and the Standard Catalogue of United States Coins. There are a few overdates that are not listed. Some of these are controversial. These include the 1858/7 flying eagle cent, 1869/8 two cent piece, 1865/4 two cent piece, 1848/7 half dime, 1836/4 half dollar, 1846/5-O half dollar, 1846/5-O \$10 gold and 1853/2 \$20 gold.

We note that the 1883/2 nickel is listed for the first time in the current edition of the Guidebook. Care must be taken to differentiate overdates from "filled dies." In one variety of 1882 nickel the final digit appears almost as a solid blob. We have seen these frequently offered as "1883/2" or

Tidwell Speaker

Kalvart K. Tidwell, Waco, Texas, numismatist and officer in the Waco Coin Club, spoke on "Men, Money and Memories" before the Teague Coin Club recently. The Teague club was just organized; it is headed by Bruce Hagadone. John Barrett, also of the Waco Club, accompanied Tidwell.

"1882/1" nickels. The true 1883/2 overdate has the 2 sharp and clear under the 3. A glass will show this unmistakably. With regard to the 1882/1 nickel, in response to several inquiries from Coin World readers we have tried to locate a specimen. To verify the existence of this coin, we would be appreciative if an owner of a specimen in EF or better condition with the overdate sharp and clear would contact us. We will then photograph the coin and publish it in this column.

Croom Heads Asheboro Club

J. D. Croom Jr., sales director of the Pinehurst Textiles, was named as temporary chairman of the Mid-State Coin Club which officially came into being recently at the Asheboro, N. C., First National Bank.

Hugh Anderson, Asheboro attorney, was elected temporary vice chairman.

The club voted to meet the second Wednesday of each month at the bank at 7:30 p.m. Membership will cost \$1.50 for adults and 50 cents for minors.

Charter membership in the club is open for two months; persons who wish to join may contact William Fogleman at the First National Bank or Croom and Anderson.

COIN WORLD CELEBRATES THE CIVIL WAR CENTENNIAL WITH A COMMEMORATIVE MEDAL

Available Only
To Coin World
Subscribers!

(Non-subscribers, see new
subscription form in this
issue.)

Available Only
From Coin World!

(One of a series)

The firing on Fort Sumter one hundred years ago marked the beginning of the War between the States. As we join the five year centennial of this historic event, Coin World joins in commemorating this event by preserving in metal the heads of state for both the North and the South: Abraham Lincoln and Jefferson Davis.

Bronze medals have been struck bearing the portraits of these two leaders. Above the three-quarter view of Lincoln and Davis appear the words: 1861 - CENTENNIAL - 1961, below, the words: WAR BETWEEN THE STATES.

On the reverse of this medal is a symbol familiar to more than 70,000 collectors — the revolving globe of the world,

Coin World's trademark! An entire series of these commemorative medals is planned, maintaining the continuity of this reverse. Each year, a prominent event or person will be placed on the obverse portraying a part in a series of American numismatic events.

You will certainly want to get the first one in this series of Coin World medals. These half-dollar-sized medals will form a companion piece to your commemorative half dollars, so-called half dollars, and other half dollar size medallion series.

Kensington Rune Stone Subject Of Minnesota Commemorative Medal

A medal struck by the American Medalists of Minneapolis, has dual historic interest—it commemorates Minnesota's centennial and the centennial of Alexandria, Minn., the home of the famous Kensington Rune Stone.

The 230-pound stone was found in the Alexandria area in 1898 and is inscribed in Runic characters which tell an amazing story that Norsemen visited the site 130 years before Columbus discovered America.

Only 2,500 of the medals were struck in two-toned bronze, according to the Minneapolis firm. None were issued in silver. They are now available at \$1 each or four for \$3.

Because of the unusual historic interest involved, a special limited striking—a maximum of 250 pieces—will be made in solid sterling silver. Sterling orders must be postmarked within 10 days. They will cost \$4 each or four for \$13.

The American Medalists address is 3014 31st Avenue South, Minneapolis, 6, Minn.

Much has been written about

Minnesota's new commemorative medal . . .

the Kensington Rune Stone, according to officials of the American Medalists, and scientific societies have made it the subject of investigation. Professors without number have puzzled their heads over it, but no one's opinion has ever been accepted as final.

The controversy started in 1898 when a farmer living in the Alexandria, Minn., area was clearing a field of timber and turned up a stone on which was carved a queer inscription. The roots of a tree were firmly entwined around the stone, indicating that it had been buried for years. It was 36 inches long, 15 inches wide, 5½ inches thick and weighed 230 pounds.

Discovery of the stone naturally developed general curiosity and it was deciphered by a professor in Scandinavian literature. It was his opinion that the writing was in Runic characters, an alphabet

stone. We were out fishing one day. When we returned home we found 10 men red with blood and dead. A V M save us from Evil. Have 10 men by the sea to look after our vessel 14 days' journey from this island. Year 1362."

The translation apparently made the amazing revelation that the stone had been left by a part of an exploring expedition of intrepid Norsemen who came from the eastern coast of North America 130 years before Columbus made his eventful voyage. It also indicated that the camp was near two rocks (skerries), one day's journey from the stone, that the stone was being left on an island and that it was 14 days' journey from the sea, although the translator said the figure might be 41.

Immediately the discovery of the rune stone started a heated dispute that has never been satisfactorily settled. Every few years some scientist, believing he has solved the mystery at least, issues a pamphlet supposed to set at rest all doubts, only to have his contentions assailed a short time later by another authority taking an opposite view.

Collectors Planning Event

Heart of the Ozark Collectors
Club, West Plains, Mo., will hold
its second annual show at the R.
E.A. building, located on North
Highway 63, September 30-October
1.

Hours will be from 1 p. m. un-
til 9 p. m. on September 30 and
from 1 to 6 p. m. on October 1.

There will be exhibits, bourse
tables and an auction to highlight
Saturday evening's show, accord-
ing to the chairman, Miss Gail
M. Harlin, the Monogram Shop,
112 Leyda Avenue, West Plains,
Mo.

Among the exhibits are expect-
ed to be the different items in

which members specialize, such
as buttons, bottles, bells, stamps,
arrowheads, as well as coins.

Coin collectors are in the ma-
jority in the club, with some 45
senior members interested in that
field, and about 40 with all other
hobbies together.

Next session of the group is
scheduled for Saturday, August 12,
in the R.E.A. building, starting at
7:30 p.m.

Air Force Club Forms

Monday, August 7, has been set
for the next meeting of a newly
organized coin club at Moody Air
Force Base, Ga., open to military
personnel, their dependents, and
civilian employees of the base.

Time of the meeting is 5:30, so
that civilians living off the base
might be able to attend without
having to return after going
home. Place of the session has
not been announced, but may be
obtained from temporary chair-
man T. Sgt. Donald R. Vose or
the Base Office of Information.

Membership fee in the club has
been set at 25 cents per meeting.
To help the treasury, however,
each member will be assessed
\$2.00, refundable if he is transfer-
red elsewhere. The group plans
to apply for membership in the
American Numismatic Associa-
tion.

Stockholm Top Numismatic Stop

"The Royal Coin Cabinet at the
State Historical Museum in Stock-
holm, Sweden, maintains probably
the best display of coins in Eur-
ope," commented Dr. Dietrich
Schwarz, curator of the numis-
matics department at the Landes-
museum, Zurich.

Other European museums
may have a greater number of
coins, but the most comprehen-
sive public exhibit is still to be
found in Stockholm," he added.

Over 200,000 numismatic items
are housed at the Royal Coin
Cabinet. Stockholm is also reput-
ed to have one of the best col-
lections of Japanese coins in the
world, possibly finer even than the
one that can be found at Tokyo's
Imperial Museum.

Schulman . . .

(Continued from Page 37)

Quiggin gives full details of the origin and reasons why these items became and are monies and what they could buy; also what their rate of value was in comparison to other regular coins. Many illustrations and plates help the collector in identification.

We hear that Spink & Son are contemplating the reprinting of this book but this will take still a while. We hope that they do it, it would be of immense value to

numismatics and to a series which in the future will become more and more important.

This article on African monies is written in order to attract the attention of collectors because of the present interest in Africa, but all odd and curious media of exchange are involved, all over the world—ancient China, old Japan, South East Asian countries like Burma, Siam, Annam, Cambodia and the enormous quantities of odd money used in the Micronesian, Polynesian and Melanesian archipelago, ancient monies in the Americas and Europe, etc., etc.

Oklahoma Club Forms

The Stephens County Coin Club has been organized in Oklahoma, meeting in Duncan. Its first session was in July, held at the Public Service Auditorium.

A book which also deals with Odd money is Einzig's book on Primitive coins but this book is not of use for the regular collector and has only research value for the specialist.

I have met many of the African representatives as they are accredited to the United Nations and have talked with them about these odd monies where they concern Africa. They all feel that a Museum should be established somewhere in Africa gathering the full history of these currencies. Time is going fast and the odd monies are being disposed of all over the world. The supply is very limited—few or none are available in Africa and only when collectors die or stop collecting or when museums or collectors sell their duplicates, some items become available.

The question arising among the Africans is in which town should the museum collection be formed—in Lajos (Nigeria) in the former Belgian or French Congo, in still-to-be-independent Nairobi (Kenya) in Ghana or in Liberia, etc., etc. It is time that we get together and I propose the formation of a committee to study and decide. I will be happy to serve in an advisory capacity.

An interesting situation arose recently when at one time I was offered a King Manila direct from Nigeria for about \$3000 and a similar piece for a few hundred dollars. A King Manila is a half open (sort of shape of a crescent) heavy copper ring which was worn around the neck and represented great wealth in early Nigerian days, particularly inland. The Manila ring (a small ring open at one end) becomes the regular "coin" on the West African Coast, so much that factories in Birmingham imitated them and English traders used these imitations to do business.

However, the natives were quick in valuating the original ones at much higher prices than the imitations. A King Manila weighing at least five pounds explains by its term that not only it is big and rare but also belongs to the king or chief of the tribe.

One of my Nigerian friends explained clearly to me how rare they are and that a value of 1000 pounds is not unusual. However, a missionary returning from Port Harcourt did not establish as high a price and offered me a similar five pounds (plus plus) for several hundred dollars. Now is the time to place these in a museum. I will tell you more about this fascinating world of African early monies.

Toronto Club Hears Warsaw Doctor Speak

Dr. Henry Fenigstein of Toronto spoke on "Coins of Israel" at a recent meeting of the Toronto Coin Club, held at the Royal York hotel.

Dr. Fenigstein, who is a physician, surgeon, author and widely renowned as the organizer of the Medical Center in Warsaw's wartime Ghetto, passed each piece in his presentation hand-to-hand through the audience as he talked.

He added a conspectus of Hebrew numeration and chronology to his talk, and members are to be supplied with a mimeographed summary. Dr. J. S. Wilkinson, president of the Canadian Numismatic Association, gratefully acknowledged Dr. Fenigstein's talk. A. E. H. Petrie, FRNS, editor of the Canadian Numismatic Journal, was another special guest, and he brought warm greetings from the Ottawa Coin Club. John J. Pittman, of Rochester, was also present.

Inspector Robert J. P. Hather of the Toronto Club supplied material to fill two cases at the Royal Bank at Danforth and Woodbine Avenues in Toronto for a special educational display for school children.

The club's treasurer, F. C. Jewett, 89 Thursfield Crescent, Toronto, 17, continues to accept orders for the club's 1961 medallion. Aluminum costs \$1.25, bronze, \$3 and sterling, \$10.

J. P. Morgan Club Treasurer

J. P. Morgan was elected treasurer of the Jun-Ad Coin Club of Greensburg, Ind., at the last meeting of the group. He will fill out the unexpired term of Paul K. Turner, resigned. On the program of the meeting were talks by Henry Motherall of Indianapolis and Don McKinney of Greensburg, on the subject of coin insurance. Some 50 members attended.

Constitution Okayed

Approval of a new constitution and establishment of the second Sunday of the month as the regular meeting time were the chief items of business at the July session of the Tri-County Coin Club held in the Eagles Lodge at St. Marys, Ohio.

Unanimous acceptance of the new club constitution was reported by Wilbert G. Church, club secretary, who also stated that William Briggs, of Lima was given the newly created position of club treasurer.

A special exhibit enjoyed by the 39 members and 36 guests in-

cluded an 1856 flying eagle cent displayed by Clarence Briggs, of Lima. The "trading area" was a busy spot during the afternoon.

Next meeting of the group will be held at the same location on August 13.

New members included: Paul Keim, Botkins; Rick Van Voorhis, John Van Voorhis, both of Wapakoneta; Ed Stapleton, St. Marys; James Fairfield, Fort Wayne.

Maria Theresa Owned Large Coin Collection

Maria Theresa, the great queen of the Austrian Empire in the 18th century, owned one of the world's largest numismatic collections at the time of her death. The collection is still intact, fully catalogued, and may be seen at the Kunsthistorisches in Vienna.

Michigan Club To Have Show

The Flying Eagle Coin Club of Flint, Mich., will have its first coin show and bourse Sunday, September 24, in the ball room of the Hotel Durant in Flint.

Arrangements for bourse tables may be made by contacting Chairman Lloyd Thompson, 3422 Detroit Street, Flint.

The club meets twice a month, has more than 70 members and is affiliated with the Michigan State Numismatic Society. It was organized early in 1960.

The club will have a joint meeting and auction with the Holly, Mich., Coin Club at Holly's Bennett Junior High Wednesday, August 9, at 7:30 p. m., according to John Steve, publicity chairman.
